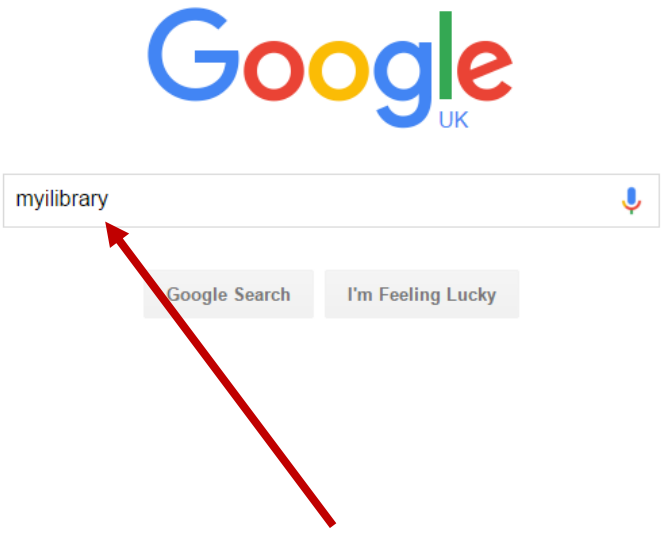
# INTRODUCTION TO E-BOOKS

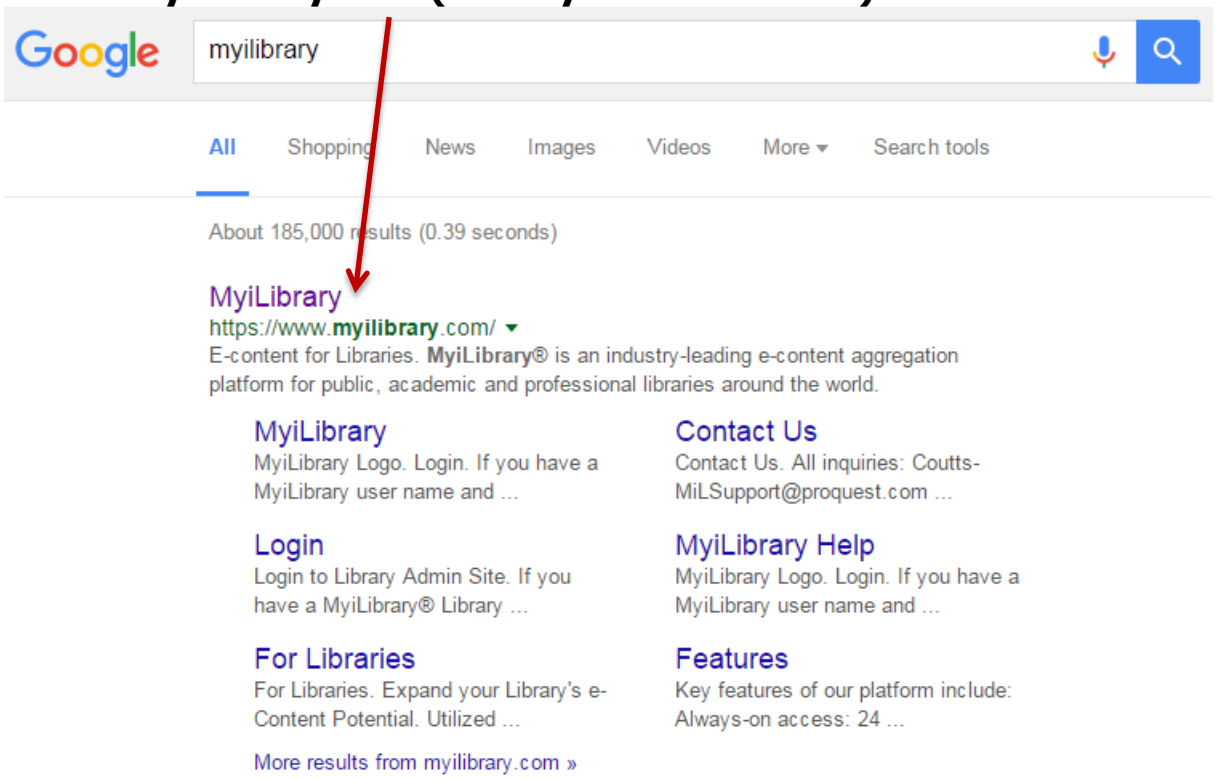
## How to access full text books online

Go to www.google.co.uk

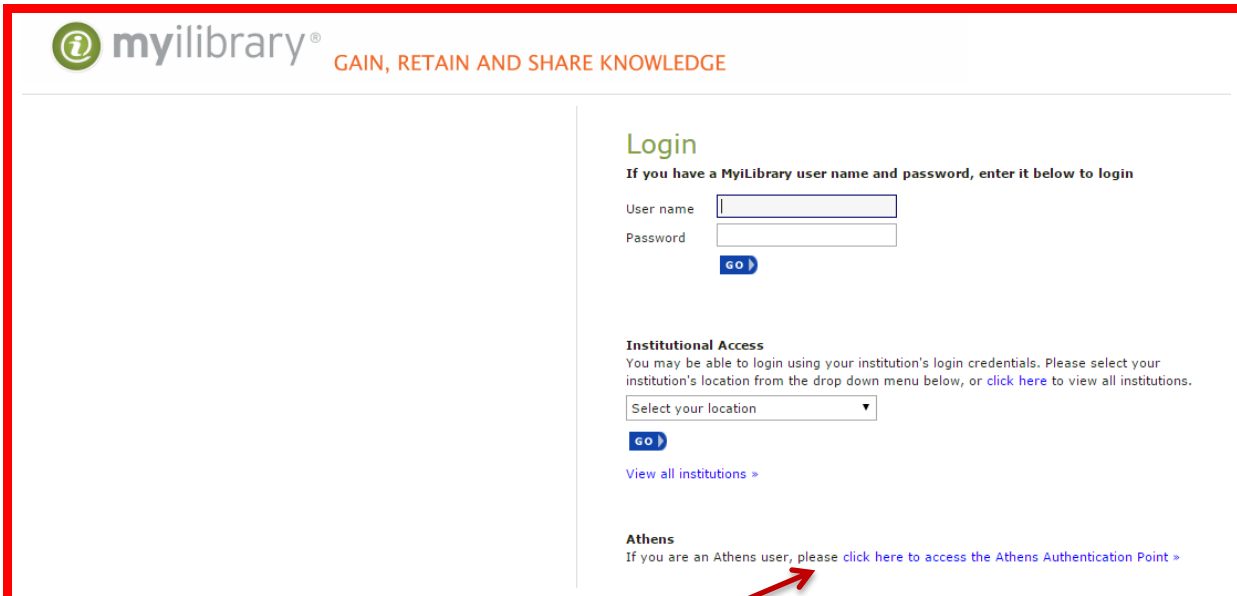


And search for **MyiLibrary**

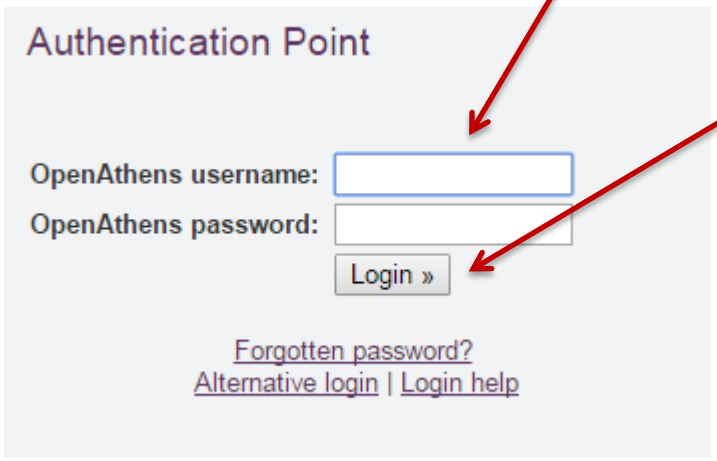
## Select MyiLibrary.com (usually the first result)



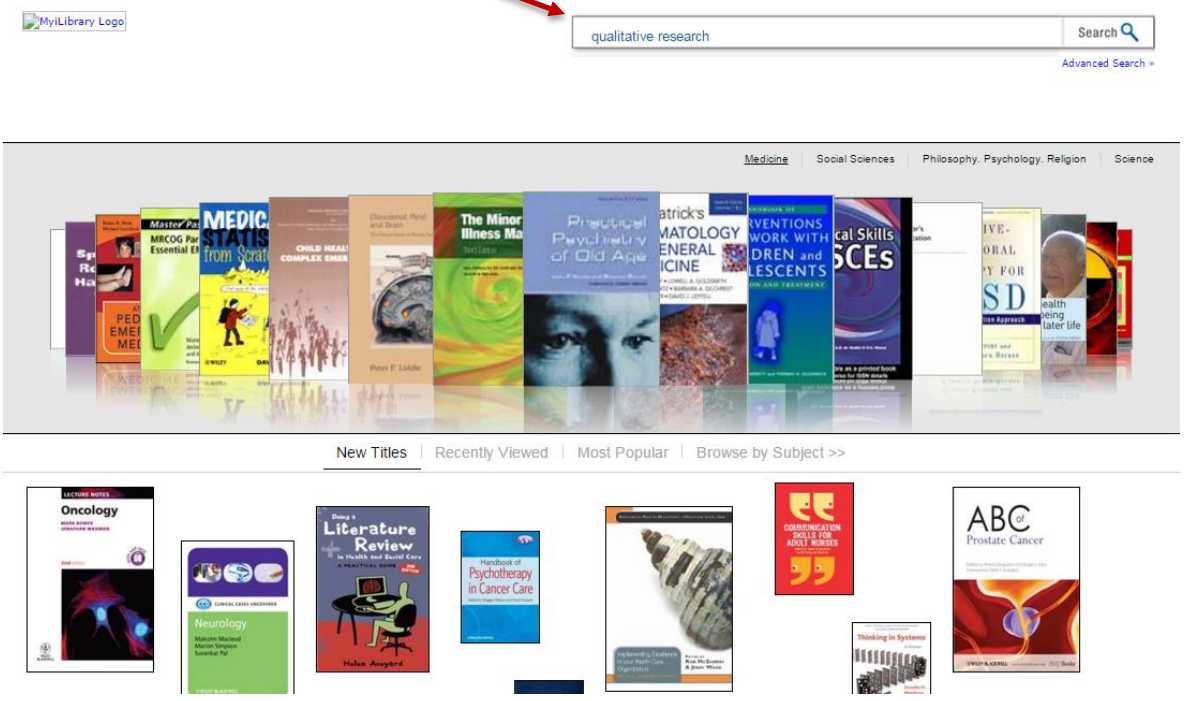
## Select Search & View Login



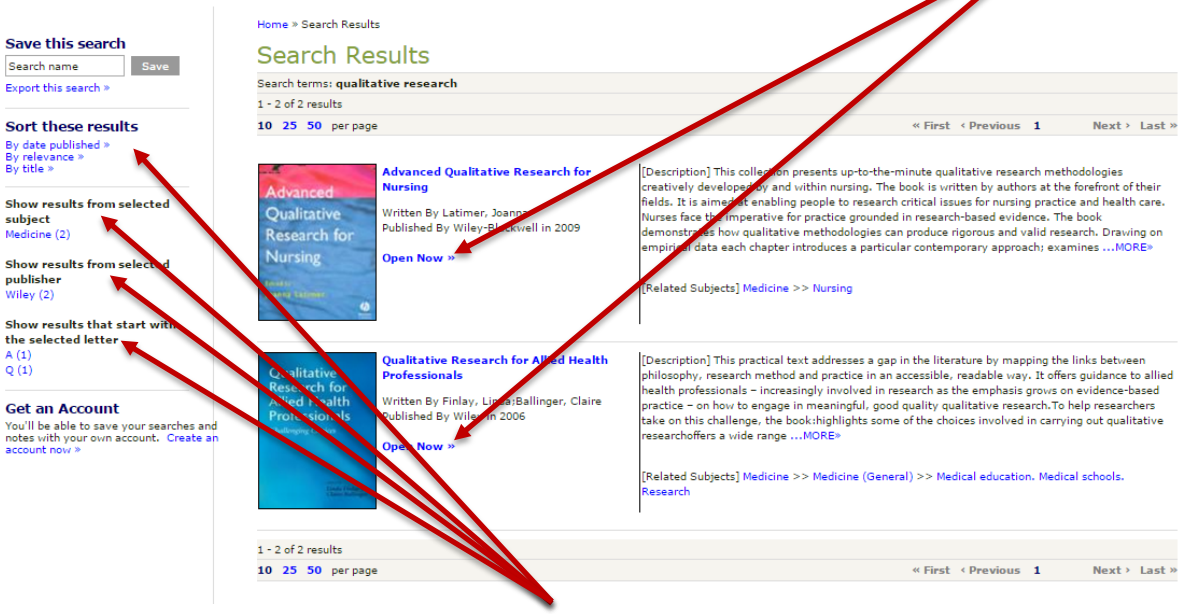
Click on the Athens log in option, enter your information, and log in.



Search for your book via title, author etc. or browse by subject or publisher.



Once you are presented with your results follow the Open Now links to open the book.



If you wish to view the results differently, you can sort them by date, and relevant, or limit the amount further by selecting to show only specific subjects, publishers, and title.

Most E-books follow the same format with a contents section in the left hand margin.

You can browse the content or you can perform a search for a topic within the book.

You are allowed to print or download a limited number of pages from the e-book.

We hope you found this online guide useful. Please take a moment to complete this short survey to enable us to gather feedback:
