

The ATG Masterplan Uses definition as set down in the DfE Strategy Objective is as follows:

*2.1.1.1 A development encompassing land and buildings for business involved in high-tech, advanced manufacturing, scientific, new-technology, educational and research & development purposes. Buildings on site should be set in a high quality environment and have the flexibility to accommodate a number of uses/users, enable conferencing and other corporate events, while also offering facilities to support the workforce where they are not available in close walking distance e.g. crèche, small scale convenience retail provision and other uses.”*
