Economic Dashboard

Isle of Man Treasury - Economic Advisory

This dashboard has been prepared for the Isle of Man Government Treasury from a number of sources. It is designed to give an overall indication of key economic indicators for the Isle of Man. Sources of data are shown on the final slide.

Data is updated on a regular basis, depending on availability.

Information is provided under the terms of the Isle of Man Government Open Government Licence:

Vacancies

Vacancies Advertised

● Total Finance
 ● Total Digital
 ● Total Business
 ● Total Visit
 ● Total Public
 ● Other roles

Vacancy data is compiled by the Department for Enterprise using job listings published with the Isle of Man Job Centre.

An exercise is undertaken to remove duplicate jobs, especially where a job is advertised by multiple recruitment agencies, as well as to allocate jobs to economic sectors where this is not listed.

Dashboard comparison with labour market report

The below charts are included for comparative purposes to show the differences between the figures reported in this dashboard for jobseekers and vacancies as compared to the official report produced monthly by Statistics Isle of Man.

Official Jobseeker rate vs Dashboard

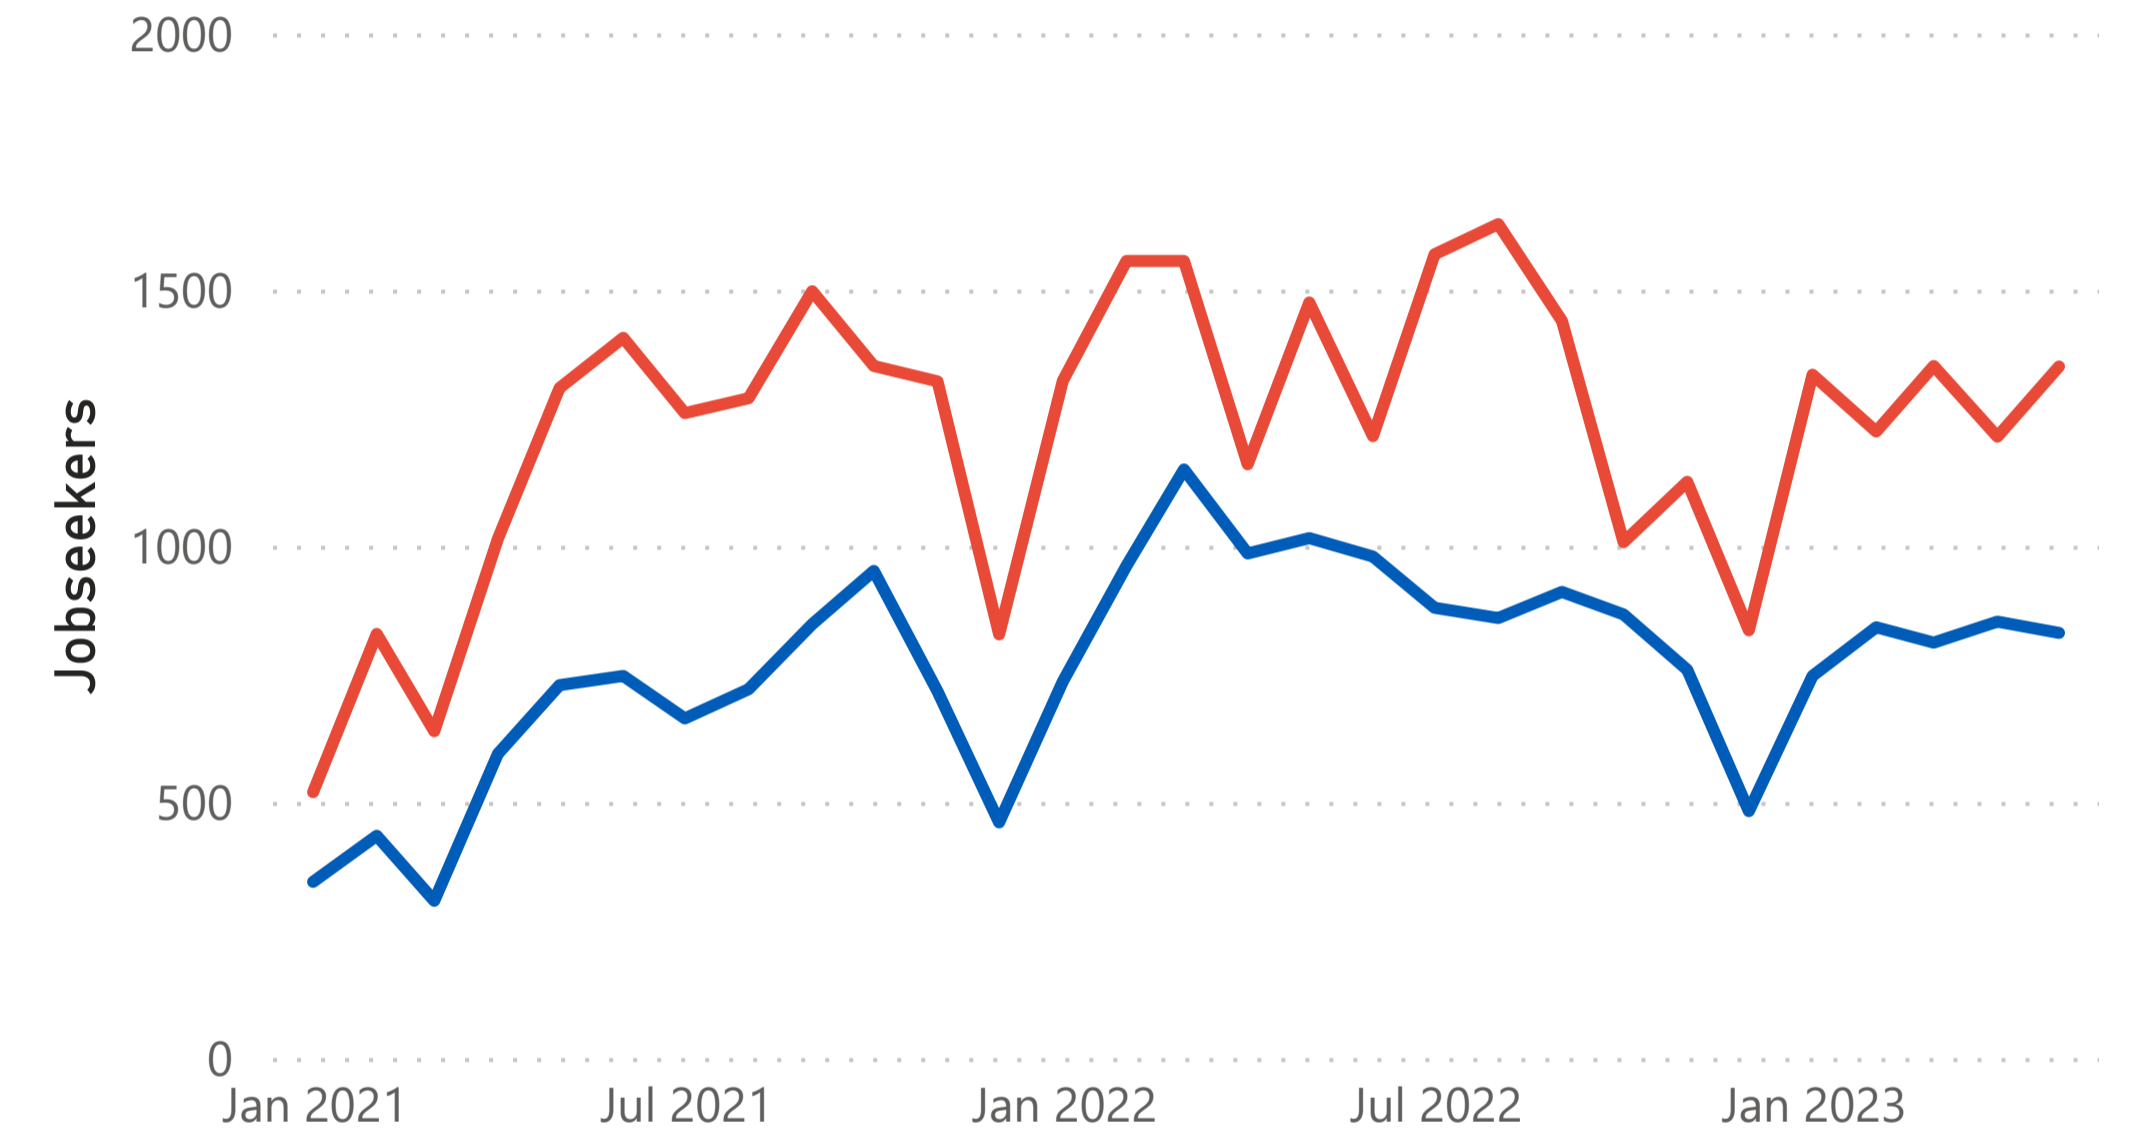

● Stats IOM Jobseekers ● Dashboard Jobseekers

The Official Jobseeker rate is reported monthly. The Dashboard Jobseeker rate is reported weekly, leading to small discrepancies between the two.

Official Vacancy rate vs Dashboard

● Stats IOM Vacancies remaining in month ● DfE Vacancy estimate

The Official Vacancy rate does not include jobs advertised by employment agencies / recruiters. The DfE estimate involves a manual process to add in these vacancies to the overall figure, and the removal of duplicate entries (for example where multiple Agencies advertise the same role). As roles are not given unique flags in the system, this requires an element of judgement.
