

SHEEP & GOAT MOVEMENT & RECORD BOOK
Sheep & Goats (Records, Identification and Movement) Order 2010
EU Regulation: EC 21/2004

Sheep Flockmark UK 151 _ _ _ _	Goat Herdmark UK 151 _ _ _ _
Address of Holding	
Person Keeping Record (name & address)	

About this document:

Use: as an aid to complying with the record keeping requirements of the above Legislation.

Legislation Requirements:

Details of all sheep and goats moved, sold, re-identified and deaths must be recorded within 36 hours of the event.

The flock/herdmark and individual number must be recorded to identify and trace sheep or goats traded.

Keepers are required to hold additional records detailing year of birth and the month of identification (for sheep born after 1st Jan 2012).

All records, (paper, electronic or otherwise) must be made available to a Department Officer upon request.

Sheep and Goat records must be retained for at least six years.

Please note: for movements of large consignments, copies of Export Health Certificate / FMA intake schedule or electronic records may be held, providing these are cross-referenced in the movement book.

General Notes:

Sheep moved from a holding are required to be marked with appropriate eartag(s) bearing the flockmark of birth or residence, together with an individual identity mark, depending on age (see overleaf).

Additional Information:

On or before 4th June each year the total number of sheep and/or goats on a holding on the 4th May in that year shall be recorded as a separate entry in the movement book.
