TREATMENT

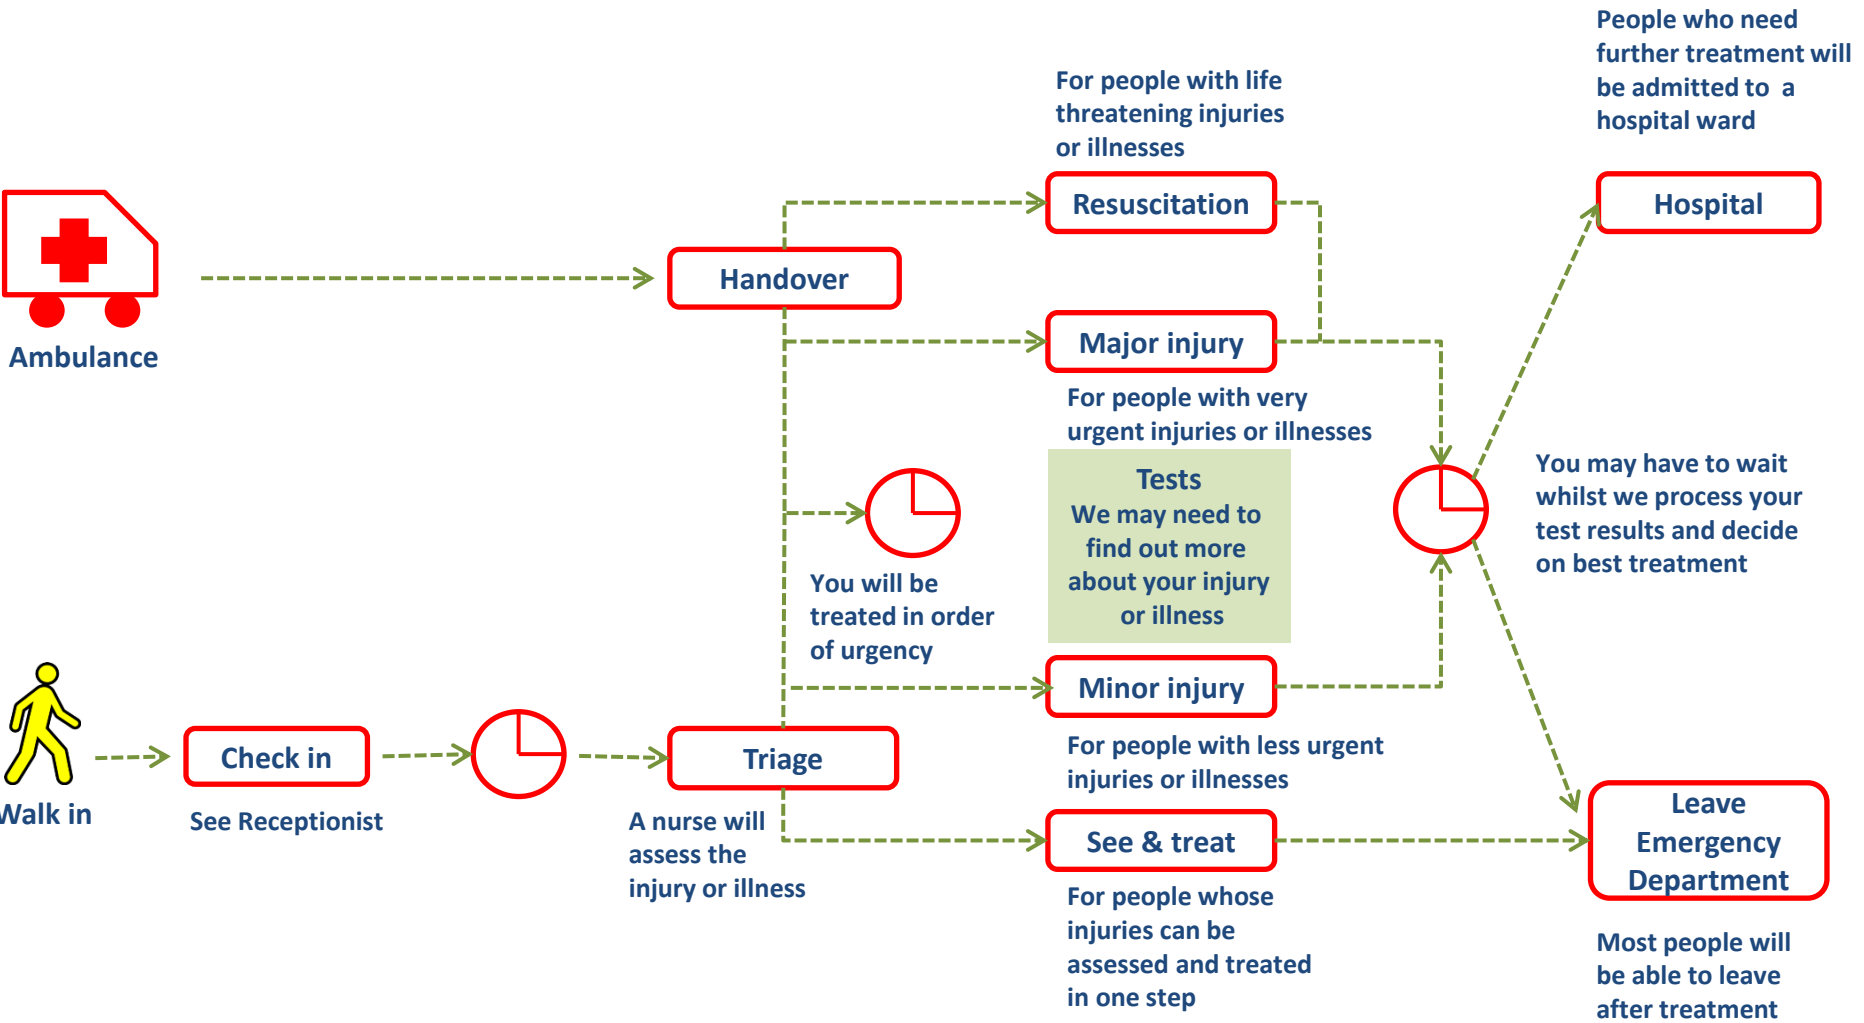

OUTCOME

Handover

Resuscitation

For people with life threatening injuries or illnesses

Major injury

For people with very urgent injuries or illnesses

Tests

We may need to find out more about your injury or illness

Minor injury

For people with less urgent injuries or illnesses

See & treat

For people whose injuries can be assessed and treated in one step

Hospital

People who need further treatment will be admitted to a hospital ward

You may have to wait whilst we process your test results and decide on best treatment

Leave Emergency Department

Most people will be able to leave after treatment

You will be treated in order of urgency
