*EXPLANATORY NOTE*

*(This note is not part of the Regulations)*

The withdrawal of funds is the ability to pay a pension directly from accumulated pension funds without the need to purchase an annuity. These Regulations provide the calculation of the annual pension, options available to the member to increase or decrease the amount and requirements for the periodic review of the amount payable.

The Regulations also provide for the remainder of a pension to be paid as a lump sum to the member or their dependant(s) once the value of the fund is less than or equal to the commutation limit defined in the Income Tax (Approved Pension Schemes) (Trivial Commutation Lump Sums) Regulations 2008.
