You can navigate to the search screen at any time by clicking the 'search' button, or from the main menu, by entering your terms into the box.

There is an intellisense system in place, which will offer different options based on what you type. Select one, or complete your phrase. Remember you can use a Wildcard search, by using "*" to give a wider set of results. "Diabet*" would search for diabetes, and diabetics.

As with the in-library catalogue, you can select a title to view more information. The status is shown as available, on loan, reference, or none in stock (which means the book is currently on order).
