Electronic Tagging and Sheep and Goat Movement Reporting Update
Presented by Alistair Breed

Isle of Man
Government

o Why is it needed?

o What is it?

o How will it be implemented?

o When will it start?

o Questions

Isle of Man
Government

Reiltys Ellan Vannin

Why?

- Traceability for food and animal health

- EU rules compliance

- Continuation of export trade live and meat including UK

Isle of Man
Government
Reiltys Ellan Vannin

What is it?

Extension of previous requirements to include:

- Electronic Identification of slaughter lambs (EID)
- Movement reporting
- Central database

Isle of Man
Government

Reiltys Ellan Vannin

Softening the Impact

- Minimising requirements for paper
- Use of Critical Control Points to report Movements through them
- Providing access to on-line system

Isle of Man
Government

# When is it starting?

Phased start:

- Slaughter lamb EID tagging requirements by 23rd May 2016

- Login instructions, Movement reporting forms and Guidance notes sent out by 24th May

- Full Movement reporting 31st May 2016

**Isle of Man**
Government

Reiltys Ellan Vannin

Do's and Don'ts

- Do order your own slaughter tags

- Do continue to keep records either electronically or on paper

- Don't use more than 1 EID tag per animal

- Don't forget to use the right taggers

Isle of Man
Government
Reiltys Ellan Vannin
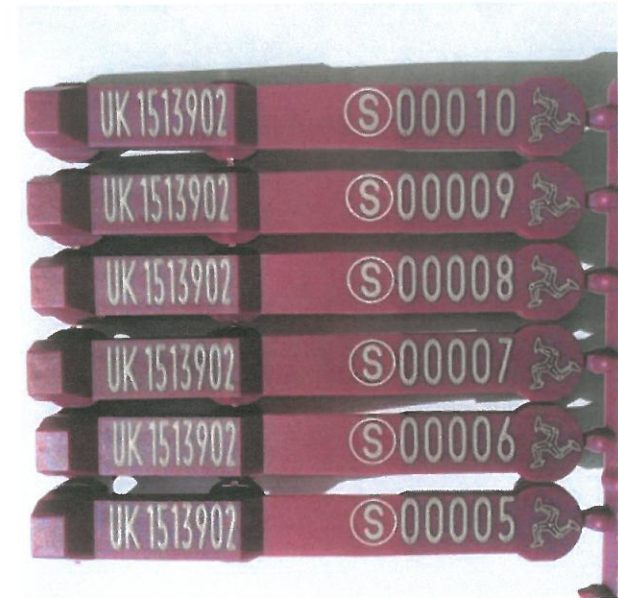

Summary

o **Electronic tagging extended to include slaughter lambs**

o **Requirement to report movements either by Web or paper**

o **Critical Control Points (NMP & Mart) will report movements directly**
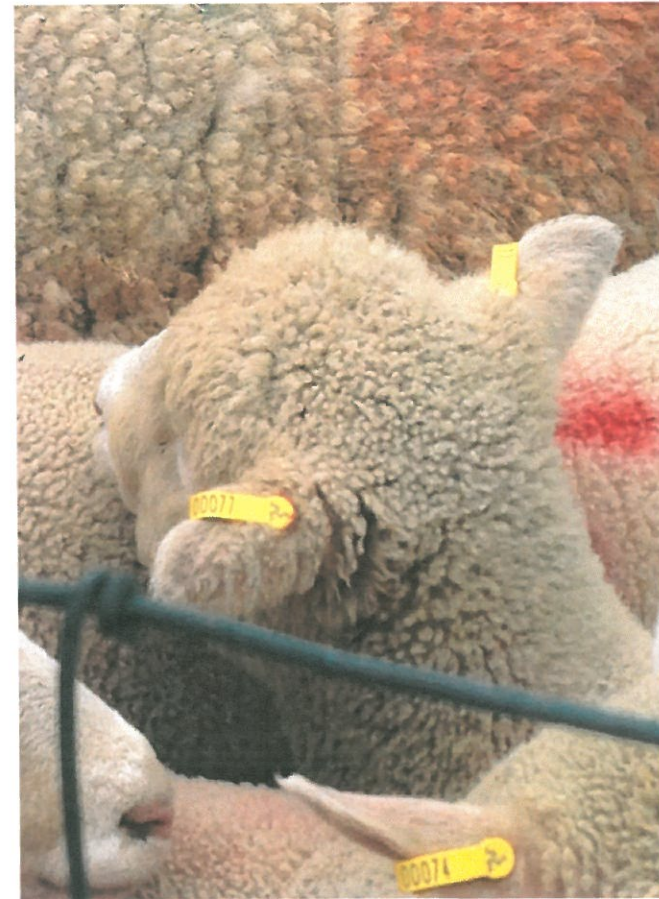

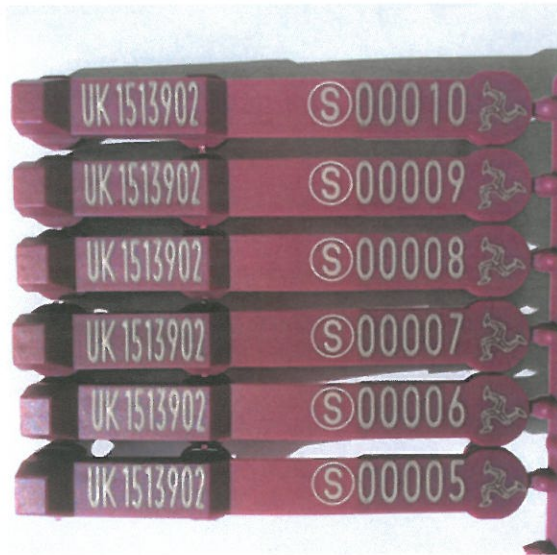

o **Starts by 31st May 2016**
