

Healthcare when you visit the UK

The Reciprocal Healthcare Arrangement 2023 allows you to access various types of NHS care when you visit the UK including:

- **Medically necessary care**
- **Treatment organised by Manx Care**

Not everything is free so you should have healthcare and repatriation insurance when travelling off-island, particularly when going outside the UK:

- **Residents are covered by the RHA for stays in the UK up to 6 months**
- **Students studying in the UK are included**
