Community Medical Courier Service 2024

The Isle of Man Government and Manx Care invites expressions of interest from suitably experienced and qualified contractor to provide Community medical courier service to various Community Health Centres and General Practitioners across the Island.

It is recognised that the collection and delivery of medical specimens, supplies and correspondence is essential in supporting safe, high quality service provision to Isle of Man residents.

The Service consists of a range of different transportation elements; many are time bound and have specific deadlines. There is a requirement for transportation of items to be delivered to the Pathology Department at Nobles Hospital, transportation of temperature/exposure sensitive goods and items of a patient confidential manner.

The Contractor will be required to collect medical specimens from all General Practitioner facilities around the Island once per day, and deliver to the Pathology Department at Noble's Hospital for analysing.

It is essential to the operational delivery of professional healthcare standards provided at Noble's Hospital that this activity be undertaken in compliance with the delivery schedule, which will be outlined in the ITT.
