

## **Expressions of Interest**

### **Provision of a Pharmacy Data Processing Service**

The Isle of Man Government invites expressions of interest from suitably experienced Contractors to provide a Pharmacy Data Processing Service to Manx Care.

The Board is seeking to enter into an agreement with a Contractor for the provision of a prescription data processing service to the islands Community Pharmacies, which equates to approximately 1.7 million prescribed items per year.

The Contractor will be required to enter prescription data onto their electronic platform and send reports to Manx Care on a monthly basis. The reports will enable the Board to make payments to each of the Community Pharmacies as well as providing management data.

Currently all prescriptions are paper based, however it is anticipated that electronic prescriptions will be introduced during the contract term, therefore this needs to be factored in as a future development.

Access to the electronic platform will be required to allow the Pharmaceutical Adviser's office to run ad-hoc reports and custom searches on the data that has been input.

An advice service for prescribing queries relating to permissible items on prescriptions is also required.

In order to participate in this competitive exercise, your organisation must be registered on the Isle of Man Government's Procurement Portal.
