

## FEEDBACK RECEIVED FOLLOWING COLIN SANGSTER DANCE WORKSHOPS: SEPTEMBER 2007

*"Absolutely superb. Colin insisted on the highest standards of behaviour & performance. All inhibitions were overcome. His technique for teaching 'thinking skills' was very good. Pupils comments ranged from 'awesome' to 'brilliant'."*

*"The children were all engaged. It really helped their concentration. Colin really made it seem easy. He gave them confidence & belief, pointing out the importance of listening & focus. Excellent! They all left smiling."*

*"The objective was clear & the content purposeful. Colin had great control over the children & behaviour management was fantastic. It was inclusive, with things for every child to do - even a wheelchair bound child."*

*"He was brilliant. The workshops were age appropriate & extremely worthwhile. The children enjoyed it & their dance skills improved visibly during the session. They enjoyed the dance routine so much that they did not want to go to lunch!"*

*"Colin was inspirational and motivated the children really well. The children & staff thoroughly enjoyed it and the content & level were age appropriate."*

*"The suitability was good and the children thoroughly enjoyed themselves. It would have been nice to spend some more time developing the dance sequence."*

*"Fantastic! The children all thoroughly enjoyed themselves & gained a great deal from it. Colin really made them think about their concentration & listening skills. Very suitable for this age group."*

*"Colin communicated excellently with them and managed the group well. Dance workshop was a narrow title for something which covered sports skills, drama, motivation, communication, respect & much more."*

*"Very Good. Fits in well with dance topics and format. Useful for boys to see a good strong male role model showing dance can be athletic and strong."*
