- (c) where the account holds clients' free money or clients' settlement monies, the words "free money" or "frmony" or "settlement" or "sttlmt", as the case may be; or
  - (d) in the case of an account in a country or territory outside the Island, such description in an official language of that country or territory as is equivalent to those words and abbreviations.
- (2) In the case of a specified client bank account or client free money account where the bank has been chosen by the licenceholder, the name of the bank together with the fact that the account is a specified client bank account must be notified to the client(s) within 5 business days of the account opening.
- (3) Subject to paragraph (4), the bank at which the account is held must acknowledge to the licenceholder in writing that —
- (a) it understands that all money standing to the credit of all client bank accounts maintained by the licenceholder is held by the licenceholder as trustee and that the bank is not entitled to combine the account with any other account or to exercise any right of set-off or counterclaim against money in that account in respect of any debt owed to it by the licenceholder;
  - (b) interest earned on each such account will be credited to the account or to an account of the same type;
  - (c) the title of each such account—
    - (i) is in the form requested by the licenceholder, and
    - (ii) sufficiently distinguishes the account from any other account containing money belonging to the licenceholder;

and the licenceholder must supply, or arrange for the bank to supply, the Commission with a copy of the acknowledgement.

- (4) In the case of an account in a country or territory outside the Island, the licenceholder must either—
- (a) ensure that the account is protected by segregation under trust or otherwise by statutory or other regulation, as effectively as it would be if held in a client bank account in the Island, or
  - (b) warn the client in writing that his money may not be protected as effectively as it would be if it were so held.

- (5) Except in the case of an account referred to in rule 3.22, the licenceholder must not allow a client bank account to become overdrawn.
- (6) Subject to rule 3.26, the licenceholder must not pay money which is not client money, or permit such money to be paid, into a client bank account unless it is required—
  - (a) to open or maintain the account; or
  - (b) to restore an amount withdrawn in error from the account.
- (7) If money paid to the licenceholder contains both client money and money which is not client money, the licenceholder must—
  - (a) pay the money into a client bank account, and
  - (b) as soon as the funds are cleared and the amount which is not client money is ascertained, withdraw that amount from the account.
- (8) The licenceholder must not withdraw money from a client bank account unless—
  - (a) it is not client money;
  - (b) it is properly required for payment to or on behalf of a client; or
  - (c) it is properly transferred to another client bank account or into a bank account in the client's own name.
- (9) The licenceholder must not withdraw for its own account any interest earned on a client bank account which is due to a client under rule 3.14.
- (10) The licenceholder must not withdraw money for or towards payment of its own fees or commission unless—
  - (a) the withdrawal is in accordance with the terms of a relevant agreement; or
  - (b) the amount is agreed by the client or finally determined by a court or arbitrator.

### **3.11 Records to be kept by licenceholder**

- (1) The licenceholder must keep proper records of client money received, paid or held by it.
- (2) The records must in particular contain—

  - (b) entries from day to day of all receipts and payments, including interest if applicable;
  - (c) an up-to-date record of the balances on—
    - (i) all client bank accounts,
    - (ii) all accounts of the licenceholder with brokers and other persons (other than recognised banks) in which money is held which, if it were held by the licenceholder, would be client money; and
    - (iii) the licenceholder's ledger accounts relating to client money received, paid or held by it; and
  - (d) such further details as are reasonably necessary to demonstrate compliance with the requirements of this Part.
- (3) The records must identify the client on behalf of whom any client money is received, paid or held.
- (4) Where appropriate, the records must also—
- (a) disclose with reasonable accuracy, at any time, the details of transactions in respect of which client money is received, paid or held; and
  - (b) facilitate a full audit trail of money in and out of accounts referred to in paragraph (2)(c)(i) and (ii).
- (5) A licenceholder must preserve any records referred to in this rule for at least 6 years.

### **3.12 Accounting for and use of client money**

- (1) A licenceholder must account properly and promptly for client money.
- (2) In particular, the licenceholder must ensure that—
  - (a) client money and other money do not become intermingled (except in accordance with rule 3.10(6) and (7));
  - (b) it can at all times be sure how much client money stands to the credit of each client; and

- (c) money belonging to one client is not used for another (except in the case of an account maintained under rules 3.21A, 3.21B, 3.21C, 3.21D and 3.21E or 3.21(2)).

### **3.13 Reconciliation**

- (2) For licenceholders licensed to carry on regulated activities falling within Class 6 the reconciliation required by paragraph (1) must be carried out daily.
- (3) For licenceholders licensed to carry on regulated activities falling within Class 2, Class 3, Class 4 or Class 5 the reconciliation required by paragraph (1) must be carried out at least once a calendar month.
- (4) All client bank accounts must be reconciled to the same date.
- (5) A reconciliation under paragraph (1) must be checked by an individual other than the person by whom it was carried out.
- (6) The licenceholder must keep a record of every reconciliation under paragraph (1) and every check under paragraph (5).
- (7) The licenceholder must correct any discrepancies discovered on a reconciliation under paragraph (1) within 5 business days unless, in the case of paragraph (1)(a), they arise solely as a result of normal timing differences.
- (8) The licenceholder must notify the Commission, with details, where it has not carried out or is not able to carry out the reconciliation required by paragraph (1).
- (9) The notification referred to in paragraph (8) must be made within 5 business days of the date that the reconciliation should have been undertaken.

- (10) The licenceholder must notify the Commission, with details, within 5 business days where it has completed the reconciliation required by paragraph (1) but—
  - (a) it is not able to correct a discrepancy; or
  - (b) more than 3 months after completion, a discrepancy has not been corrected.

### **3.14 Interest on client money**

- (1) Where rule 6.38 or 6.63 (client agreement or terms of business) applies—
  - (a) a licenceholder must pay interest on client money in accordance with the terms set out in the client agreement or terms of business referred to in that rule;
  - (b) if no interest on client money is to be paid to the client, this must be clearly set out in the client agreement or terms of business.
- (2) Where rule 6.38 or 6.63 does not apply, a client must receive written disclosure of how interest earned on client money is to be treated.

### **3.15 Client money held on trust**

Client money held by a licenceholder is held on trust—

- (a) on the terms and for the purposes set out in this Part and, subject thereto, *pari passu* for the respective clients for whom it is received or held;
- (b) subject to sub-paragraph (a), *pari passu* in meeting any shortfall in valid claims by clients to client money (disregarding rules 3.16 to 3.17 for this purpose); and

### **3.16 Pooling**

- (1) For the purpose of rule 3.15(a), in determining the entitlement of clients to client money, all client money of any currency, even though held in more than one client bank account, shall be treated as pooled, in a single pool, except as provided in rules 3.16A, 3.16B, 3.16C and 3.17.

- (2) Where, at the time at which a default occurs, cheque or other payable order has been paid into a client bank account but has not been cleared, the amount of the order shall, when it is cleared, be pooled in accordance with this Chapter.
- (3) For the purpose of this rule and rules 3.16A to 3.18 a licenceholder or bank is in default where—
  - (a) a liquidator, receiver, administrator or trustee in bankruptcy has been appointed in respect of it;
  - (b) any equivalent procedure has occurred in respect of it in a country or territory outside the Island and the United Kingdom; or
  - (c) the Commission has directed that it shall be treated as in default for the purpose of this Chapter (in the case of a bank, either generally or in relation to the licenceholder in question).
- (4) Where a profit or loss is made in the conversion of foreign currency the profit or loss shall be attributed to the pool, rather than the individual clients affected.
- (5) Where monies are received from any compensation scheme in relation to a default, those monies must be treated in accordance with any entitlement of the compensation scheme in force at that time.
- (6) Where monies are received from a liquidator in relation to a default, those monies must be treated as pooled for the purposes of this rule and applied to the benefit of all clients affected by the default.

### **3.16A Default of bank — specified client bank accounts**

- (1) This rule applies where client money held by a licenceholder is insufficient to pay the claims of all clients because a bank in which client money is held is in default.
- (2) Where client money is held in a specified client bank account at the bank in default—
  - (a) that money shall not be pooled with client money held in any other client bank account; and
  - (b) a client or clients to whose credit any amount stands in that account—

- (i) shall be entitled to claim (pari passu if more than one) against the money in that account in respect of that amount; but
  - (ii) shall not be entitled to claim against any other client bank account (at that or any other bank) in respect of that amount.
- (3) Where client money is held in a specified client bank account at a bank other than the bank in default, that money shall not be pooled with client money held in any other client bank account (at that or any other bank).
- (4) Any previously opened account that was a “designated client bank account” under the Financial Services Rule Book 2008 shall be treated as a specified client bank account.

- (2) Where client money is held in a client free money account at the bank in default —
  - (a) that money shall only be pooled with client money held in any other client free money account at that or any other bank; and
  - (b) a client or clients to whose credit any amount stands in that account —
    - (i) shall be entitled to claim (pari passu if more than one) against the money in that account in respect of that amount; but

  - (i) shall be entitled to claim (*pari passu* if more than one) against the money in that account in respect of that amount; but
  - (ii) shall not be entitled to claim against any other client bank account (at that or any other bank) in respect of that amount.

### **3.17 Money held in overseas bank accounts**

- (1) Where client money held by a licenceholder is insufficient to pay the claims of all clients because a bank outside the Island and the United Kingdom in which client money is held does not recognise that money in the account is held in accordance with this Part —
  - (a) all client money held in the licenceholder's client bank accounts with that bank shall be pooled and made available to satisfy the claims of clients whose money was held or which should have been held in a client bank account with that bank; and
  - (b) that client money shall not be treated as pooled with client money held in the licenceholder's client bank account or accounts with any other bank.
- (2) Where client money held by a licenceholder is insufficient to pay the claims of all clients because a bank outside the Island and the United Kingdom in which client money is held is in default—
  - (a) all client money held in the licenceholder's client bank accounts outside the Island and the United Kingdom with that bank shall be pooled and made available to satisfy the claims of clients whose money was held or which should have been held in a client bank account outside the Island and the United Kingdom with that bank; and

- (b) that client money shall not be treated as pooled with clients' money held in other client bank accounts of the licenceholder.

### **3.18 No withdrawal in case of default**

- (1) In the case of default by—

- (3) Paragraph (1) does not apply to any step taken by the licenceholder in good faith which he reasonably believes will preserve or enhance the fund of client money available despite the default.

### **3.19 Displacement of general law**

The duties of a licenceholder under this Part in relation to client money shall take the place of the corresponding duties which would be owed by it as a trustee under the general law, but without prejudice to the remedies available to clients.

## *Chapter 2 – Specific client money requirements for investment business*

### **3.20 Application**

This chapter applies to Class 2 licenceholders licensed as stockbrokers or discretionary portfolio managers.

### **3.21 Accounts for margined transactions**

- (1) This rule applies only to licenceholders licensed to carry on regulated activities falling within Class 2; and the foregoing provisions of this Part are subject to the provisions of this rule.
- (2) Where margined transactions are undertaken, a licenceholder must maintain a specified client bank account or accounts—
  - (a) specially created for the purpose of holding margined client money, and
  - (b) segregated from any account holding any other client money.
- (3) Subject to paragraph (4), a licenceholder must hold any margined client money in a client bank account referred to in paragraph (2), and no other money may be held in such an account.
- (4) When a licenceholder undertakes margined transactions with or for a client under the rules of an exchange and in the types of contracts traded on that exchange, the licenceholder may, instead of paying margined client money into a client bank account, pay it to the exchange or an intermediate broker to be credited to the licenceholder's client account with the exchange and to be dealt with in accordance with its rules and regulations.
- (5) The licenceholder may withdraw money from a client bank account referred to in paragraph (2) where it is properly payable to an exchange, an intermediate broker or the licenceholder's client account with an exchange.
- (6) A licenceholder must hold in such an account initial margins calculated in accordance with paragraph (7) on each client's positions (not on the overall net position across all clients).
- (7) For the purpose of paragraph (6) the initial margin to be held for any client at any time is the total amount which, under the rules of the relevant exchange, the licenceholder or intermediate broker would be required to deposit in cash or approved collateral as a fidelity deposit in respect of all that client's open positions in margined transactions at that time, irrespective of any unrealised profit or loss on such positions.
- (8) Where—

- (a) margins required by an exchange or intermediate broker in respect of any one client have not been received from the client, and
- (b) the licenceholder does not pay the required amount direct to the exchange or broker,

the licenceholder must itself pay the required amount into the relevant client bank account.

- (9) A licenceholder must ensure that, on each business day, A is not less than B where—

A = the total, as at the close of business on the immediately preceding business day, of—

- (a) the aggregate of the balances on all the licenceholder's client bank accounts referred to in paragraph (2);
- (b) the net aggregate of the licenceholder's equity balances with exchanges and with intermediate brokers; and
- (c) the value of approved collateral deposited with the licenceholder, whether held by it or by an intermediate broker;

B = the aggregate of the required contributions of all the licenceholder's clients as at the close of business on the immediately preceding business day.

- (10) In this rule—

a client's "equity balance" with a licenceholder at any time is the amount which—

- (a) the licenceholder would be liable to pay to the client, or
- (b) the client would be liable to pay to the licenceholder,

in respect of his margined transactions if each of his open positions were liquidated at the closing or settlement prices, and a licenceholder's "equity balance" with an exchange or with an intermediate broker has a corresponding meaning;

"margined client money" means client money held or received for the purpose or in the course of a margined transaction;

"margined transaction" means a transaction effected by a licenceholder with or for a client relating to an option, future or contract for differences under the terms of which the client will

or may be liable to make deposits in cash or collateral to ensure the performance of obligations which he may have to perform when the transaction falls to be completed or upon the earlier closing out of his position;

"option", "future" and "contract for differences" mean investments falling within paragraphs (g), (h) and (i) respectively of the definition of "investment" in Schedule 2 to the Regulated Activities Order 2009;

a client's "required contribution" is the greater of—

- (a) the amount of the client's initial margin at that time, calculated in accordance with paragraph (7); and
- (b) the aggregate of the client's equity balance at that time and the amount of the value of the approved collateral which the client has provided to the licenceholder.

### **3.21A Client Money Requirement**

The client money requirement is either—

- (a) subject to rule 3.21E(1), the sum of, for all clients—
  - (i) the individual client balances calculated in accordance with rule 3.21B(1), excluding—
    - (A) individual client balances which are negative (i.e. debtors); and
    - (B) clients' equity balances; and
  - (ii) the total margined transaction requirement calculated in accordance with rule 3.21D(1); or
- (b) the sum of —
  - (i) for each client bank account—
    - (A) the amount which the licenceholder's records show as held on that account; and
    - (B) an amount which offsets each negative net amount which the licenceholder's records show attributed to that account for an individual client; and
  - (ii) the total margined transaction requirement calculated in accordance with rule 3.21D(1).

### **3.21B General Transactions**

- (1) The individual client balance for each client should be calculated in accordance with the following table.

Individual client balance calculation		
	Free money (no trades); and	A
	Sale proceeds due to the client:	
	(a) in respect of principal deals when the client has delivered the investments; or	B
	(b) in respect of agency deals, when either:	
	(i) the sale proceeds have been received by the licenceholder and the client has delivered the investments; or	C1
	(ii) the licenceholder holds the investments for the client; and	C2
	The cost of purchases:	
	(c) in respect of principal deals, paid for by the client but the licenceholder has not delivered the investments to the client; and	D
	(d) in respect of agency deals, paid for by the client when either:	
	(i) the licenceholder has not remitted the money to, or to the order of, the counterparty; or	E1
	(ii) the investments have been received by the licenceholder but have not been delivered to the client;	E2
Less		
	Money owed by the client in respect of unpaid purchases by or for the client if delivery of those investments has been made to the client; and	F
	Proceeds remitted to the client in respect of sales transactions by or for the client if the client has not delivered the investments.	G
Individual Client Balance "X" = (A+B+C1+C2+D+E1+E2)-F-G		X

- (2) A licenceholder should calculate the individual client balance using the contract value of any client purchases or sales.

- (3) A licenceholder may choose to segregate investments instead of the value identified in paragraph (1) (except E1) if it ensures that the investments are held in such a manner that the licenceholder cannot use them for its own purposes.
- (4) Segregation in the context of paragraph (3) can take many forms, including the holding of a safe custody investment in a nominee name and the safekeeping of certificates evidencing title in a fire resistant safe.
- (5) In determining the client money requirement under rule 3.21A, a licenceholder need not include money held in accordance with rule 3.21E(3) (delivery versus payment transaction).
- (6) In determining the client money requirement under rule 3.21A, a licenceholder –
  - (a) should include dividends received and interest earned and allocated;
  - (b) may deduct outstanding fees, calls, rights and interest charges and other amounts owed by the client which are due and payable to the licenceholder;
  - (c) should take into account any client money arising from reconciliation discrepancies; and
  - (d) should include any unallocated client money.

### **3.21C Equity Balance**

A licenceholder's equity balance is the amount which the licenceholder would be liable to pay in respect of the licenceholder's margined transactions if each of the open positions of the licenceholder's clients was liquidated at the closing or settlement prices published by the relevant exchange or other appropriate pricing source and the licenceholder's account is closed.

### **3.21D Margined Transaction Requirement**

- (1) The total margined transaction requirement is—
  - (a) the sum of each of the clients' equity balances which are positive; less
  - (b) the proportion of any individual negative client equity balance which is secured by appropriate collateral; and
  - (c) the net aggregation of the licenceholder's equity balance (negative balances being deducted from positive

balances) on transaction accounts for customers with exchanges and counterparties.

- (2) To meet a shortfall that has arisen in respect of the requirement in rule 3.21A(a)(ii) or (b)(ii), a licenceholder may utilise its on appropriate collateral provided it is held on terms specifying when it is to be realised for the benefit of clients, it is clearly identifiable from the licenceholder's own property and the relevant terms are evidenced in writing by the licenceholder. In addition, the proceeds of the sale of that collateral should be paid into a client bank account.
- (3) If a licenceholder's total margined transaction requirement is negative, the licenceholder should treat it as zero for the purposes of calculating its client money requirement.
- (4) The terms "client money balance" and "licenceholder's equity balance" in rule 3.21C refer to cash values and do not include non-cash collateral or other investments held in respect of a margined transaction.

### **3.21E Reduced Client Money Requirement Option**

- (1)
  - (a) When, in respect of a client, there is a positive individual client balance and a negative client equity balance, a licenceholder may offset the credit against the debit and hence have a reduced individual client balance in rule 3.21B(1) for that client.
  - (b) When, in respect of a client, there is a negative individual client balance and a positive client equity balance, a licenceholder may offset the credit against the debit and hence have a reduced individual client equity balance in rule 3.21D(1) for that client.
- (2) The effect of paragraph (1) is to allow a licenceholder to offset, on a client by client basis, a negative amount with a positive amount arising out of the calculations in rules 3.21B(1) and 3.21D(1), and, by so doing, reduce the amount the licenceholder is required to segregate.
- (3) Money need not be treated as client money in respect of a delivery versus payment transaction through a commercial settlement system if it is intended that either:
  - (a) in respect of a client's purchase, money from a client will be due to the licenceholder within one business day upon the fulfilment of a delivery obligation; or

- (b) in respect of a client's sale, money is due to the client within one business day following the client's fulfilment of a delivery obligation,

unless the delivery or payment by the licenceholder does not occur by the close of business on the third business day following the date of payment or delivery of the investments by the client.

### **3.22 Accounts for clients' free money and settlement money**

- (1) A licenceholder may not operate a client settlement account —
  - (a) without the consent of the Commission, or
  - (b) otherwise than in accordance with such conditions as the Commission may impose.
- (2) For the avoidance of doubt, a licenceholder may operate a client free money account without the consent of the Commission.

#### *Chapter 3 – Specific requirements for CIS service providers*

### **3.23 Application**

This chapter applies only to licenceholders licensed to carry on regulated activities falling within Class 3.

### **3.24 Subscription and redemption accounts**

Where a licenceholder holds money in respect of the sale or redemption of units in a collective investment scheme, the money must be held in a subscription account or a redemption account, as the case may be.

#### *Chapter 4 – Specific trust money requirements for trust service providers*

### **3.25 Application**

This Chapter applies to all licenceholders licensed to carry on regulated activities falling within Class 5 in relation to such activities carried on in or from the Island.

### **3.26 Duty to hold trust money separately**

A licenceholder must pay trust money into either—

- (a) a trust bank account, or

- (b) if circumstances make it impractical to set up a separate account for the trust in question, a client bank account.

### **3.27 Operation of trust bank account**

- (1) The title of a trust bank account must clearly—
  - (a) show that it is held by the trustee in his capacity as trustee, and
  - (b) identify the trust to which it relates.
- (2) The requirement of paragraph (1)(a) can be met by using the term "as trustee of", and should include the word "trust", "foundation", "settlement", "charity" or similar words, abbreviations or language in the account title, to indicate that the account is held on behalf of a trust.

### **3.28 Accounting for and use of trust money**

- (1) A licenceholder must account properly and promptly for trust money.
- (2) In particular, the licenceholder must ensure that—
  - (a) trust money and other money do not become intermingled (except in accordance with rule 3.26(b)); and
  - (b) it can at all times be sure how much trust money stands to the credit of each trust.
- (3) Rules 3.10 to 3.14 apply to trust money paid into a client account in accordance with rule 3.26(b) as they apply to client money with the substitution, for references to a client, of references to the trust concerned or to the trustees of that trust, as the case may require.

### **3.29 Reconciliation**

- (1) A licenceholder must, at least once a month, or at such other intervals as the trustee may direct, reconcile the balance on each trust bank account, as recorded by the licenceholder, with the balance on that account as set out in the statement issued by the bank at which the account is held.
- (2) A reconciliation under paragraph (1) must be checked by an individual other than the person by whom it was carried out.
- (3) The licenceholder must keep a record of every reconciliation under paragraph (1) and every check under paragraph (2).

- (4) The licenceholder must correct any discrepancies discovered on a reconciliation under paragraph (1) within 5 business days unless they arise solely as a result of normal timing differences.
- (5) The licenceholder must notify the Commission, with details, within 5 business days where—
  - (a) it has not carried out or is not able to carry out the reconciliation required by paragraph (1), or
  - (b) it has completed the reconciliation but—
    - (i) is not able to correct any discrepancy, or
    - (ii) more than 3 months after completion, a discrepancy has not been corrected.

## PART 4 – CLIENTS' INVESTMENTS

- (a) references to a client were references to a collective investment scheme, or to a participant in such a scheme, as the case may require (but so that each such scheme shall be treated as a separate client);
- (b) references to a client's investments were to investments which are assets of such a scheme;
- (c) references to safe-custody services were to those activities, so far as they relate to the custody of assets of such a scheme; and

Capital and reserves are to be based on audited balance sheets prepared so as to give a true and fair view in accordance with accounting standards generally accepted in the UK, International Financial Reporting Standards, Statement of Recommended Practice or other internationally accepted accounting standards.</p> <p>A licenceholder may include freehold and leasehold land and buildings at a valuation taken as its open market value on an existing use basis, if it has been valued by a qualified surveyor or valuer within the preceding 18 months, or in other cases its net book value. The Commission may require evidence of the valuation or request that a valuation be carried out at the licenceholder's expense.</p> <p>Losses in one or more quarters of the current year may be offset by profits made in other quarters. Such offsetting profits do not need to be verified by auditors.</p> <p>A licenceholder must, if required by the Commission, or may, if agreed with the Commission, adjust its capital and reserves figure where there has been a significant</p>

Note 4	<p>Qualifying subordinated loans. A loan to a licenceholder may be treated as a qualifying subordinated loan for the purposes of this Rule provided that it is in the same form as the model issued by the Commission and it is signed by authorised signatories of all of the parties.</p> <p>A licenceholder must obtain the prior written approval of the Commission before the repayment, prepayment or termination of a subordinated loan.</p>

Note 6	<p><b>Market Value adjustments</b></p> <p>The percentages in Section 4 shall be applied to calculate the amount by which the market value less the investments adjustment is lower than the book value of current asset investments. This calculation is to be provided to the Commission and any exceptions to the above percentages must be agreed in writing by the Commission.</p>

	<p><b>Settlement adjustments</b></p> <p>Unless calculating a CRR requirement (See below), a valuation adjustment must be calculated for creditors arising from purchases of investments outstanding for more than thirty days from contractual settlement date, the extent (if any) to which the market value of the underlying investments exceeds the amount of each creditor.</p>

Note 8	<p>Qualifying secured liabilities. A liability secured against freehold or leasehold land and buildings, where the property is the sole security for the liability, may be treated as a qualifying secured liability to the extent of the lower of:</p> <p>A – the total of the secured liability due more than one year after the balance sheet date; or</p> <p>B – 80% of the value of the property on which the liability is secured.</p> <p>For the purposes of the above, the value of the property shall be taken as its open market value on an existing use basis, if it has been valued by a qualified surveyor or valuer within the preceding 18 months, or in other cases its net book value. The Commission may require evidence of the valuation or request that a valuation be carried out at the licenceholder’s expense.</p>

Note 16	Exceptional costs	Exceptional items either as defined in UK FRS 3, or IAS 1. Examples given in IAS1 include asset write downs, restructuring costs, profit or loss on disposal of assets, discontinuing operations and reversal of provision. Rule 2.44

***Schedule 2.4 – Calculation of Counterparty Risk Requirement***

**Frequency of calculation.**

1. A licenceholder must calculate its counterparty risk requirement ("CRR") at least once each business day; for the purposes of the relevant calculations the licenceholder may use prices of investments and physical commodities as at the close of business on the previous day.

**Negative amounts.**

2. A licenceholder must not include any CRR if it is a negative amount.

**Instruments for which no CRR has been specified.**

3. Where a licenceholder is in doubt as to the classification of an item for the purposes of CRR, it must promptly seek advice from the Commission and until the Commission informs the licenceholder of the correct treatment in the CRR calculation, the licenceholder must add to its CRR the whole of the exposure on the item concerned.

**Provisions.**

4. A licenceholder may reduce the exposure on which its CRR is calculated to the extent that it makes provision for a specific counterparty balance.

**Associated companies and subsidiaries.**

5. For the avoidance of doubt, a licenceholder must calculate a CRR as appropriate on exposures to or from associated companies and subsidiaries.

**Basis of valuation.**

6. For the purposes of valuing instruments and physical commodities at market value in the calculation of CRR, a licenceholder must be consistent in the basis it chooses and may use either mid market value or bid and offer prices (as appropriate).

**Acceptable collateral.**

7. A licenceholder may reduce the exposure to a counterparty on which its CRR is calculated to the extent that it holds acceptable collateral from that counterparty.

**Nil weighted counterparty exposures.**

8. A licenceholder may disregard any counterparty exposure calculated in accordance with paragraphs 2 to 9, if the counterparty is or the contract is

guaranteed by or is subject to the full faith and credit of a sovereign government or province or state thereof (or a corporation over 75% owned by such government, province or state), which is a member of the OECD and the government, province, state or corporation has not defaulted, or entered into any rescheduling or similar arrangement, or announced the intention of so doing, in respect of itself or its agency's debt within the last five years.

**Cash against documents transactions**

9. (1) A licenceholder which enters into a transaction on a cash against documents basis must calculate the market risk for transactions still unsettled 16 calendar days after settlement date as set out in (2) below and must then multiply this by the appropriate percentage set out in Table A below to calculate a CRR for each separate unsettled transaction.

Table A

Percentage to be applied to the market risk

Calendar days after settlement day	Percentage
0 – 15	Nil
16 – 30	25%
31 – 45	50%
46 – 60	75%
Over 60	100%

- (2) Market risk calculation:
- (a) Where a licenceholder has neither delivered securities nor received payment when purchasing securities for, or selling securities to, a counterparty, the market risk is the excess of the contract value over the market value of the securities.
- (b) Where a licenceholder has neither received securities nor made payment when selling securities for, or purchasing securities from, a counterparty, the market risk is the excess of the market value over the contract value of the securities.
- (3) The sum of the amounts calculated in accordance with (1) and (2) above is the licenceholder's total CRR for cash against documents transactions.

**Free deliveries of securities**

10. (1) When a licenceholder makes delivery to a counterparty of securities without receiving payment or pays for securities without receiving the certificates of good title, the licenceholder must calculate the free delivery value for each transaction.
- (2) A licenceholder must calculate the free delivery value for each transaction as set out below and multiply this value by the

appropriate percentage in Table B below for free deliveries of securities as follows –

- (a) if the licenceholder has delivered securities to a counterparty and has not received payment, the free delivery amount is the full amount due to the licenceholder (i.e. the contract value);
- (b) if the licenceholder has made payment to a counterparty for securities and not received the certificates of good title, the free delivery amount is the market value of the securities.
- (3) The sum of the amounts calculated in accordance with (1) and (2) above is the licenceholder's total CRR for free deliveries of securities.

Table B

Percentage to be applied to free deliveries relating to securities

Nature of counterparty to whom free delivery is made		Business days since delivery		
		0- 3	4 - 15	over 15
1	A counterparty to whom securities have been delivered or to whom payment for securities has been made	Nil	100% of contract or market value	100% of contract or market value
2	A regulated financial institution or regulated banking institution to whom securities have been delivered or payment made with the expectation that market practice will result in a settlement day longer than three days from delivery date	15% of contract or market value		100% of contract or market value
2A	A counterparty to whom securities have been delivered which settle through the Crest or to whom payment for such securities has been made.	15% of contract or market value		100% of contract or market value
3	A Manager, underwriter, sub-underwriter or member of a selling syndicate or issuer to whom payment for securities has been made; or a manager of a regulated collective investment scheme to whom units of the scheme have been delivered or payment for units of the scheme has been made.	Nil		100% of contract or market value or, if the issue is a country approved by the Commission, 15% of contract or market value.

### Options purchased for a counterparty

11. (1) **Single premium options. Where a licenceholder has purchased a single premium option on behalf of a counterparty and the counterparty has not paid the full option premium cost within three business days after trade date, a licenceholder must calculate a CRR as the amount by which the option premium owed to the**

**licenceholder exceeds the market value of the option or acceptable collateral.**

- (2) Traditional options. Where a licenceholder has purchased a traditional option for its own account or a counterparty and paid the option premium, it must calculate a CRR equal to the value of the option premium.**
- (3) The sum of the amounts calculated in accordance with (1) and (2) above is the licenceholder's CRR in respect of purchased options.**

Rule 3.7

**Schedule 3.1 - Client Money Information Sheet**

[Notes to licenceholders—

- 1) This information sheet may be incorporated as part of a two-way customer agreement.
- 2) The table below indicates which paragraphs must be included in the information sheet depending on the Class of financial services licence held and the types of account operated—

- Opt This paragraph should only be included if this type of client account is operated.
- No This type of account is not available to the Class of activity and the paragraph must not be included.
- # If more than one type of client account is operated then the paragraph must be included but if only general client bank accounts are operated then this paragraph is not required.]

**A. What is a client bank account?**

A client bank account is a bank account held by, and in the name of, [name of licenceholder] (“us” or “we”) in which we will hold your money on trust for you while it remains in the account. All money held in a client bank account is referred to as client money.

A client bank account is specially created by us for the purpose of holding your money and the money of other clients. The client bank account is segregated from any other bank account in our name holding money which is our money.

All client bank accounts are held at recognised banks. A recognised bank is a bank which holds a licence issued by the Isle of Man Financial Supervision

Commission for deposit taking or is authorised under the law of another acceptable country or territory to carry on activities corresponding to deposit taking (see rule 3.2 of the Financial Services Rule Book 2009 for the full definition).

In relation to fiduciary services, please note that an account held in the name of your company, or as trustee of your trust, is not a client bank account. It is mandated to your company or the trustee of your trust and the company or the trustee is the legal owner of the money held in that account. As the money in these accounts is not classed as client money the details relating to pooling of money in client bank accounts (as detailed below) do not apply.

**B. What different types of client bank accounts are there and what are the differences between them?**

There are different types of client bank account. The main difference between the types of client bank account is what happens in the event of a bank failure (i.e. where, as a result of the failure, the client money held by us is insufficient to pay the claims of all clients).

It is therefore important that you understand the risks associated with the different types of client bank account and ensure that we are made aware of your preferences (if any) in this regard.

**C. General client bank account**

A general client bank account usually holds money of several clients. The money may be held at one bank or the money may be in multiple bank accounts spread across several banks.

In the event of a default of a bank where we have a general client bank account, client monies held in all of our general client bank accounts will be pooled (even if money is held in more than one general client bank account and the accounts are held in more than one bank). In this situation, each client who has money in the general client bank account will lose an equal proportion of their money, whether or not the bank your client money is held with is in default. This loss will be adjusted by any compensation arrangements in place.

**D. Specified client bank account**

A specified client bank account is a client bank account where —

- (i) you have chosen the bank where your money will be held; or
- (ii) we have chosen the bank for you and have let you know the name of the bank and the fact that the account is a specified client bank account within 5 business days of the account being opened;

A specified client bank account is intended to hold client money in a bank selected by you and by other clients. The account will be segregated from any other account holding client money. It will have the word "specified" (or an appropriate abbreviation) in its title.

If your money is held in a specified client bank account and the bank at which that money is held goes into default, the monies will not be pooled with client money held in any other client bank account and you could potentially lose the total amount held at the bank (subject to any compensation arrangements in place). Under the liquidation, or any compensation scheme in place at that time, you may be entitled to claim against the money in the specified client bank account. However, you would not be entitled to claim against any other client bank account (at that or any other bank) in respect of that money.

On the other hand, if your money is held in a specified client bank account at a bank other than the bank which is in default, your money will not be pooled with client money held in any other client bank account (at that or any other bank) and so in the event of default of another bank you would not lose any of your money.

If you want your money to be held in a specified client bank account, you must ask us to open one for you. You may select the bank at which it is opened or, if you would prefer, we may select a bank for you.

**E. Client settlement accounts**

A client settlement account is a client bank account which is used by us solely to hold the net balance required for the settlement of transactions for clients.

In the event of a default of a bank where we have a client settlement account, client monies held in all of our client settlement accounts will be pooled in a separate pool from other client money. In this situation, if your money is held in a client settlement account you will lose an equal proportion of your money as every other client with money in our client settlement accounts, whether or not the bank that your client money is held with is in default.

Under the liquidation, or any compensation scheme in place at that time, you may be entitled to claim against the money in the client settlement accounts. However, you would not be entitled to claim against any other type of client bank account (at that or any other bank) in respect of your money.

**F. Client free money accounts**

When we hold your money pending future investment, the money will be held in a client free money account.

A client free money account is a client bank account which is segregated from any account holding clients' money which is not held for future investment.

In the event of a default of a bank where we have a client free money account, client monies held in all of our client free money accounts will be pooled in a separate pool from other client money. In this situation, if your money is held in a client free money account you will lose an equal proportion of your money as every other client with money in our client free money accounts, whether or not the bank that your client money is held with is in default.

Under the liquidation, or any compensation scheme in place at that time, you may be entitled to claim against the money in the client free money accounts. However, you would not be entitled to claim against any other type of client bank account (at that or any other bank) in respect of your money.

Rule 6.33

*Schedule 6.1 – Personal account notice*

1. **A licenceholder must ensure that the personal account notice identifies the compliance officer or a specifically designated employee of the licenceholder to be responsible for receiving reports and granting permissions in respect of activities undertaken by its employees in accordance with the personal account notice.**
2. The personal account notice must require that an employee –
  - (a) does not deal for his own account in investments in which the licenceholder carries on investment business to any material extent, or in any related investments, without the permission of the licenceholder (such permission may be general or specific);
  - (b) does not deal in investments for his own account with any of the licenceholder's customers without the prior consent of the licenceholder;
  - (c) reports promptly to the licenceholder in writing any transaction for his own account for which permission is required under (a) above which he enters into otherwise than through the licenceholder unless he has arranged for the licenceholder to receive promptly a copy of the contract or similar note issued in respect of the transaction;
  - (d) does not deal for his own account in an investment in circumstances where he knows or should know that the licenceholder intends to publish a written recommendation, or a piece of research or analysis, in respect of that investment or any related investment which could be reasonably expected to affect the price of that investment;
  - (e) does not deal for his own account at a time or in a manner which he knows or should know is likely to have a direct adverse effect on the particular interests of any customer of the licenceholder; and
  - (f) does not accept any gift or inducement from any person which is likely to conflict with his duties to any customer of the licenceholder.
3. The personal account notice must specify that the references to an employee dealing for his own account include an employee –
  - (a) dealing in his capacity as a personal representative of an estate or as a trustee of a trust, in which estate or under which trust there is a significant interest held by the employee, or any associate of the employee, or any company or partnership controlled by him or by any associate of the employee;
  - (b) otherwise dealing in his capacity as a personal representative or a trustee, unless he is relying entirely on the advice of another person from whom it is appropriate to seek advice in the circumstances; or

- (c) dealing for the account of another person unless he does so in the course of his employment with the licenceholder.
- 4. The personal account notice must further state that, if an employee is precluded from entering into a transaction for his own account, he must not (except in the proper course of his employment):—
  - (a) procure any other person to enter into such a transaction; or
  - (b) communicate any information or opinion to any other person if he knows, or has reason to believe, that the person will, as a result, enter into such a transaction, or counsel or procure some other person to do so.
- 5. Paragraphs 2 and 3 do not apply to —
  - (a) any transaction by an employee for his own account in a packaged product; and
  - (b) any discretionary transaction entered into for, and without prior communication with the employee, provided that the discretion is not exercised by the licenceholder.

**Schedule 6.2 – Risk disclosure statement**

**Part 1 – Unregulated collective investment schemes**

- I. This notice is provided to you as a retail investor in compliance with the Rule Book issued by the Financial Supervision Commission of the Isle of Man. Retail investors are afforded greater protection under those Rules than those classed as professional investors, and you should ensure that the licenceholder with whom you are dealing tells you what this protection is.
- II. This notice does not disclose all of the risks relating to unregulated collective investment schemes. Nor does it attempt to define all the relevant terms used, and you should ensure that any terms which you do not understand are fully explained to you before completing this risk disclosure statement. You should also be satisfied that such investments are suitable for you in the light of your circumstances and financial position.

- IV. Retail investors must personally accept all the risks associated with investment in unregulated collective investment schemes, in particular that the investment involves risks that could result in a loss of a significant proportion or the entire sum invested.
- V. Where appropriate, retail investors should take independent advice on the suitability of investment in unregulated collective investment schemes.

[Notes to licenceholders -

- 1) This statement may be incorporated as part of a two-way customer agreement, except that the customer must sign separately that he has read and understood the risk warnings.
  
- 2) Licenceholders may also include further descriptions of the types of investments covered by this statement, provided such descriptions do not lessen the effect of the risk warnings provided.

## *Part 2 – Derivatives*

- I. This notice is provided to you as a retail investor in compliance with the Rule Book issued by the Financial Supervision Commission. Retail investors are afforded greater protection under those Rules than those classed as professional investors, and you should ensure that your Licenceholder tells you what this protection is.

This notice does not disclose all of the risks and other significant aspects of derivatives products such as futures, options and contracts for differences. Nor does it attempt to define all the relevant terms used, and you should ensure that any terms which you do not understand are fully explained to you before completing this risk disclosure statement. You should not deal in derivatives unless you understand the nature of any such contracts that you may be entering into or which may be entered into on your behalf, and the extent of your exposure to risk. You should also be satisfied that such contracts are suitable for you in the light of your circumstances and financial position.

- II. Whilst derivatives can in certain circumstances be used for the management of investment risk, some such investments are unsuitable for many investors. Further, strategies intended to reduce risk may be impossible to complete in some market conditions, and so the intended level of protection will not be obtained. You should establish whether this will be a possibility. Your Investment Management Agreement should make it clear whether your Licenceholder may use derivatives on your behalf for speculative purposes, or whether they may only be used to effect an investment strategy of reducing risk.
- III. Certain strategies using a combination of instruments, such as those described as “spreads” or “straddles”, may be as risky as - or more risky than - simple “long” or “short” positions. Investors may not only lose their entire capital, but be liable to pay much more. Different instruments involve different levels of exposure to risk, and in deciding whether to trade such instruments you should be aware of the following points:—

### **Futures**

Transactions in futures involve the obligation to make, or to take, delivery of the underlying asset of the contract at a future date, or in some cases to settle a position with cash. They carry a high degree of risk. The “gearing” or “leverage” often obtainable in futures trading means that a small deposit or down-payment can lead to large losses as well as gains. It also means that a relatively small market movement can lead to a proportionately much larger movement in the value of an investment, and this can work against you as well as for you. Futures transactions carry a

contingent liability, and you should be aware of the implications of this, in particular the margining requirements which are set out in paragraph f) below.

## Options

There are many different types of options, with different characteristics and subject to different conditions. You should ensure that these characteristics are appropriate to your circumstances; you should also be aware of the relevant expiry dates, after which the rights attached to your options can no longer be exercised.

**Buying options:** Buying options involves less risk than writing options, because you can simply allow your option to lapse if the price of the underlying asset moves against you. The maximum loss is limited to the cost of the option (the "premium") you have paid, plus any commission or other transaction charges. However, if you buy a call option on a futures contract, and you later exercise the option, you will acquire the future. This will expose you to the risks described under "Futures" and "Contingent Liability Transactions".

**Writing Options:** If you write an option, the risk involved is considerably greater than that involved in buying options. By writing an option, you accept a legal obligation to purchase or sell the underlying asset if the option is exercised against you, however far the market price has moved away from the exercise price. You may be liable for margin to maintain your position, and a loss may be sustained well in excess of any premium received. If you already own the underlying asset which you have contracted to sell (this is known as dealing in "covered call options") the risk is reduced. If you do not own the underlying asset (i.e. you are dealing in "uncovered call options") the risk can be unlimited. Such transactions are not generally suitable for retail investors and so only experienced persons should contemplate writing uncovered options, and then only after securing full details of the applicable conditions and potential risk exposure.

Traded options are options which are traded on an exchange. There is therefore a market in them and this can be helpful in valuing or liquidating ("closing out") positions.

**Traditional Options:** A further type of option known as a "traditional option" is written by certain London Stock Exchange firms under special exchange rules. These may involve greater risk than other options (e.g. Traded Options above). Two way prices are not usually quoted in them, and there is no exchange market on which to close out an open position or to effect an equal and opposite transaction to reverse an open position. It may be difficult to assess the option's value, or for the seller of such an option to manage his exposure to risk. Certain options markets operate on a margined basis, under which buyers do not pay the full premium on their option at the time they purchase it. In this situation you may subsequently be called upon to pay margin on the option up to the level of your premium. If you fail to do so as required, your position may be closed or liquidated in the same way as a futures position.

## **Contracts for Differences**

Futures and options contracts can also be referred to as “Contracts for Differences”. These can include options and futures on the FTSE100 index or any other index, as well as currency and interest rate swaps. However, unlike other futures and options, these contracts can only be settled in cash. Investing in a contract for differences carries the same risk as investing in a future or an option and you should be aware of these as set out in paragraphs A and B respectively. Transactions in contracts for differences may also have a contingent liability and you should be aware of the implications of this as set out in paragraph F below.

## **Off-exchange Transactions in Derivatives**

It may not always be apparent whether or not a particular derivative is effected on or off-exchange. Your Licenceholder must make it clear to you if you are entering into an off-exchange derivative transaction, and may only enter into off-exchange transactions which have a contingent liability (see paragraph (6)) with your express permission.

While some off-exchange markets are highly liquid, transactions in off-exchange or “non-transferable” derivatives may involve greater risk than investing in on-exchange derivatives because there is no exchange market on which to close out an open position. It may not be possible to liquidate an existing position, to assess the value of the position arising from an off-exchange transaction or to assess the exposure to risk. Bid and offer prices need not be quoted, and, even where they are, they will be established by dealers in these instruments and consequently it may be difficult to establish what is a fair price.

## **Foreign Markets**

Foreign markets will involve different risks from UK markets. In some cases the risks will be greater, and moreover timely and accurate information may be harder to obtain. On request, your Licenceholder must provide an explanation of the relevant risks and protections (if any) which will operate in any relevant foreign markets, including the extent to which he will accept liability for any default of a foreign broker through whom he deals. The potential for profit or loss from transactions on foreign markets or in foreign currency denominated contracts will be affected by fluctuations in exchange rates, which may more than wipe out any profits made through the underlying investment.

## **Contingent Liability Transactions**

Contingent liability transactions which are “margined” require you to make a series of payments against the purchase price, instead of paying the whole purchase price immediately.

If you trade in futures, contracts for differences or options, you may sustain a total loss of any margin your Licenceholder has deposited on your behalf to establish or maintain a position. If the market moves against you, you may be called upon to pay substantial additional margin at short notice to maintain the position. If you fail to do so within the time required, your position may be liquidated at a loss and you will be liable for any resulting deficit. You should ascertain from your Licenceholder whether he will be liable for any such deficit in the event that he fails to make such payments on your behalf; otherwise, you yourself will be liable.

Even if a transaction is not margined, it may still carry an obligation to make further payments in certain circumstances over and above any amount paid when you entered the contract.

Except in specific circumstances, your Licenceholder may only carry out margined or other contingent liability transactions with or for you if they are traded on or under the rules of a Recognised or Designated Investment Exchange. Contingent liability transactions which are not traded on or under the rules of a Recognised or Designated Investment Exchange may expose you to substantially greater risks.

### **Collateral**

If you deposit collateral as security, the way in which it will be treated will vary according to the type of transaction involved and where it is traded. There could be significant differences in the treatment of your collateral depending on whether you are trading on a Recognised or Designated Investment Exchange, with the rules of that exchange (and associated clearing house) applying, or traded off-exchange. Deposited collateral may lose its identity as your property once dealings on your behalf are undertaken. Even if your dealings should ultimately prove profitable, you may not get back the same assets that you deposited and you may have to accept payment in cash instead. You should ascertain from your Licenceholder how your collateral will be dealt with.

### **Commissions**

Before you begin to trade, your Licenceholder should explain to you in writing details of all commissions and other charges for which you will be liable. If any charges are not expressed in money terms (but, for example, as a percentage of the contract value), this should include a clear written explanation, including appropriate examples, to establish what such charges are likely to mean in specific money terms. In the case of futures, when commission is charged as a percentage, it will normally be as a percentage of the total contract value and not simply as a percentage of your initial payment.

### **Suspensions of Trading**

Under certain trading conditions it may be difficult or impossible to liquidate a position. This may occur, for example, at times of rapid price movement if the price

rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted. Placing a “stop-loss” order will not necessarily limit your losses to the intended amounts, because market conditions may make it impossible to execute such an order at the stipulated price.

### Clearing House Protections

On many exchanges, the performance of a transaction by your Licenceholder (or the third party with whom he is dealing on your behalf) is “guaranteed” by the exchange or its clearing house. However, this guarantee is unlikely in most circumstances to cover you, the retail investor, and may not protect you if the Licenceholder or another party defaults on its obligations to you. On request, your Licenceholder must explain any protection provided to you under the clearing agreement applicable to any on-exchange derivatives in which you are dealing. There is no clearing house for traditional options, nor normally for off-exchange instruments which are not traded on or under the rules of a Recognised or Designated Investment Exchange.

### Insolvency

The Rule Book provides for the segregation of Client Money and Clients Investments from the “own funds” of a Licenceholder acting on behalf of clients. Nonetheless, your Licenceholder’s insolvency or default, or that of any broker involved with your transaction, may lead to positions being liquidated or closed out without your consent. In certain circumstances, you may not get back the actual assets which you lodged as collateral and you may have to accept any available payment in cash (which may not cover the sum in full). On request, your Licenceholder must provide an explanation of the extent to which he will accept liability for any insolvency of, or default by, any brokers involved with your transactions.

### **Part 3 — Warrants**

This notice is provided to you as a retail investor in compliance with the Rule Book issued by the Financial Supervision Commission. Retail investors are afforded greater protection under those Rules than those classed as professional investors, and you should ensure that your Licenceholder tells you what this protection is.

This notice does not disclose all of the risks and other significant aspects of warrants; nor does it attempt to define all the relevant terms used, and you should ensure that any terms which you do not understand are fully explained to you before completing this Risk Disclosure Statement. You should not deal in warrants unless you understand the nature of any transaction that you may enter, or which may be entered into on your behalf, and the extent of your exposure to potential loss.

You should also consider carefully whether warrants are suitable for you in the light of your circumstances and financial position. In deciding whether or not to trade, you should be aware of the following matters : -

#### **Warrants**

A warrant is a right to subscribe for shares, debentures, loan stock or government securities, and is exercisable against the original issuer of the securities. Warrants often involve a high degree of gearing, so that a relatively small movement in the price of the underlying security results in a disproportionately large movement in the price of the warrant. The prices of warrants can therefore be very volatile. You also need to take into account the fact that warrants have expiry dates, after which the rights attached to them can no longer be exercised.

You should not buy warrants unless you are prepared to sustain a total loss of the money you have invested plus any commission or other transaction charges.

Some other instruments are also called warrants, but are actually options; for example, a right to acquire securities which is exercisable against someone other than the original issuer of the securities (often called a “covered warrant”).

#### **Off-exchange Transactions**

Transactions in off-exchange warrants may involve greater risk than those in exchange-traded warrants because there is no exchange market on which to liquidate your position, to assess the value of the warrant or to assess the exposure to risk. Bid and offer prices need not be quoted, and, even where they are, they will be established by dealers in these instruments and consequently it may be difficult to establish what is a fair price.

Your Licenceholder must make it clear to you if you are entering into an off-exchange transaction and advise you of any risks involved.

## Foreign Markets

Foreign markets will involve different risks from UK markets. In some cases the risks will be greater and further, timely and accurate information may be harder to obtain. On request, your Licenceholder must provide an explanation of the relevant risks and protections (if any) which will operate in any relevant foreign markets, including the extent to which he will accept liability for any default of a foreign broker through whom he deals. The potential for profit or loss from transactions on foreign markets or in foreign currency denominated contracts will be affected by fluctuations in exchange rates, which may more than wipe out any profits made through the underlying investment.

## Commissions

Before you begin to trade, your Licenceholder should explain to you in writing details of all commissions and other charges for which you will be liable. #### EXPLANATORY NOTE

*(This note is not part of the Rule Book)*

This Rule Book contains detailed rules to be complied with by the holders of licences under the Financial Services Act 2008 in carrying on regulated activities. It repeals and replaces the Financial Services Rule Book 2008 and repeals the Regulatory Codes issued under the Acts repealed by the Financial Services Act.

Part 1 is introductory. Part 2 imposes requirements with respect to financial resources and reporting. Part 3 requires client money and trust money to be kept separate from a licenceholder's money. Part 4 deals with the safeguarding and safekeeping of clients' investments. Part 5 provides for the audit of licenceholders' accounts. Part 6 lays down standards for the conduct of business by licenceholders. Part 7 imposes requirements with regard to their administration, and Part 8 with risk management and internal control.

Part 9 has been removed as the requirements to prevent money-laundering and financing of terrorism are now contained in the Criminal Justice (Money Laundering) Code 2008.
