

DERBYSHIRE OFFSHORE'S BASE RATE TRACKER WINS OFFSHORE AWARD

Derbyshire Offshore's Base Rate Tracker has just won 'Best Rate Tracker' in the 2007 Investment International Offshore Awards.

Fiona Passey, Director of Offshore Banking, Derbyshire Offshore says of the award, "We are absolutely delighted that our Base Rate Tracker has won Investment International's 'Best Rate Tracker'. Our Base Rate Tracker is a flexible and easy to understand account that suits the lifestyle of busy expatriates looking for instant access. There are no tiers so all savers can rest assured that all balances earn the same high rate of interest with no notice penalties. Savers looking for their hard-earned money to work harder will find our Base Rate Tracker account saves them constantly having to check that their interest rate is competitive."

Launched in 2000, Base Rate Tracker from Derbyshire Offshore was the original deposit account to track the UK Base Rate, with a winning combination of competitive rate guarantee, simple, transparent structure and ease of access. These core values still hold true today as Base Rate Tracker celebrates seven years in the offshore market with the Investment International award.

Fiona Passey continues, "We feel that this award underlines Base Rate Tracker's consistency and performance over the past year and demonstrates that it is still one of the most attractive products around for offshore investors. With our commitment to customer service and our long term growth plans for Derbyshire Offshore, Base Rate Tracker is set to remain a popular account in our broad based product portfolio for offshore investors."

Derbyshire Offshore's Base Rate Tracker and range of competitive savings accounts are available to Isle of Man residents looking to increase the potential of their savings and investments.

Derbyshire Offshore is the trading name of The Derbyshire (Isle of Man) Limited. Derbyshire Offshore remains wholly owned by Derbyshire Building Society.
