For Official Use only
Date of receipt

Previously approved uses for industrial denatured alcohol

The following list gives details of previously approved uses for industrial denatured alcohol.

Note: We may, on application, add further uses to this list.

Approved Use

1. For use in the manufacture of any article which in the final form is entirely free of alcohol.
2. For use in the manufacture of medical, veterinary and pharmaceutical products for external use only.
3. For use in the manufacture of any pharmaceutical product or preparation where no alcohol remains in the final product.
4. For dispensing on prescription.
5. For use, where not elsewhere authorised, in the manufacture of any product which contains alcohol but is not, or is not intended to be, a beverage or an article intended for consumption.
6. For use in the manufacture of analytical reagents.
7. For use in any industrial or commercially operated cleaning process.
8. For use in small quantities (no greater than 20 litres per annum) in any specialised hobby or pastime where:
 - use of IDA is specified in technical or trade literature; and
 - the quantities received are reasonable having regard to the nature of the pursuit involved.
9. For use by, or under the supervision of, qualified persons in medical, scientific (including photographic) or educational activities.
10. For use in the manufacture of any article for exportation.
11. For onward supply in quantities of 20 litres or less to another authorised user.
12. For dealing wholesale i.e. in quantities greater than 20 litres (distributors only).

List of formulations and used for trade specific denatured alcohol

The following table lists the formulations of, and uses for, trade specific denatured alcohol which have been approved by the Treasury, Customs and Excise Division.

Although amendments to this table will be issued when the list is amended, please contact the Advice Centre on 648140 to ensure this list is up to date.

Number	TSDA Formulation	Approved Use
1.	Tertiary Butyl Alcohol - 0.1% vol. Denatonium benzoate is added to the resulting mixture in the proportion of 10 micrograms per millilitre. Note: This is the former Denatured Ethanol B (DEB).	1. Manufacture of skin preparations (perfumes, toiletries, cosmetics and external medical applications such as medicated creams and ointments). 2. Printing ink. 3. Biocide reagent.
2.	Cyclohexane - 2.0% vol. Isopropanol - 0.1% vol.	1. Printing inks (particularly for use on food wrappers). 2. Coatings.
3.	Ethyl acetate - 2.0% vol. Isopropanol - 0.1% vol.	1. Printing inks (particularly for use on food wrappers). 2. Coatings.
4.	Methanol - 2.0% vol. Hexane - 0.5% vol.	Rocket fuel propellants.
5.	Benzyl benzoate - 5.0% vol.	Perfumes/toiletries.
6.	Isopropanol - 2.0% vol. Denatonium benzoate is added to the resulting mixture in the proportion of 10 micrograms per millilitre.	1. Kitchen hard surface cleaners. 2. Washing-up liquid.
7.	Isopropanol - 5.0% vol.	1. Car screenwash. 2. Disinfectants specifically for use in sterile environments, e.g. places where pharmaceutical drugs are produced*
8.	Methylethylketone - 1.0% vol. (consisting of 95 to 96% by weight of Methylethylketone, 2.5 to 3% by weight methylisopropylketone and 1.5 to 2% by weight of ethylisoamylketone) 1 gram of Denatonium benzoate is added to the resulting mixture.	Car screenwash.
9.	Methanol - 1.0% vol. Denatonium benzoate is added to the resulting mixture in the proportion of 10 micrograms per millilitre.	Bio-ethanol - used as road fuel.

*Note: This TSDA may not be used for the manufacture of more general household disinfectants.

**Application for Authority to Receive Industrial Denatured Alcohol
or Trade Specific Denatured Alcohol**
