## WARDEN'S WALK King's Forest

Warden's Walks are available as a series of leaflets, each with a detailed map and route description. They are also available on our website. They should be used in conjunction with the Outdoor Leisure Map 1:25,000 series.

This is a walk of 10.5 kilometres, about 6.5 miles, approx 2.5 - 3 hours. It involves a walk uphill from Crosby following the Millennium Way, before continuing upwards on the Cronk Breck bridleway.

The route then turns off the bridleway to follow the boundary wall along the flank of Slieau Ruy, giving extensive views over the central valley towards Douglas.

As you approach King's Forest look out for ravens, the largest member of the crow family. They are regularly seen perching on stone walls in the area.

The walk then descends through King's Forest following the forest road to join the A1 Douglas to Peel road at Greeba Castle. After turning towards Peel the route then uses the Rhenny Road to access the heritage trail on the old railway line.

From here the walk is on the level back to Crosby. The heritage trail provides a good vantage point to view the willow woodland and the large range of wetland plants that are on either side of the track.

Look out for frogs in the ditches and kestrels hunting over the grasslands. The best time to visit to appreciate the array of flowers is in May and June.
