Notes

- (1) Please see overleaf for fees.
- (2) Tests are normally conducted in Douglas but tests on tractors, invalid carriages, motor assisted cycles and engineering plant may be conducted at other places.
- (3) You should apply for your test at least 3 weeks in advance.
- (4) You are advised to cross out the smallest number of days or parts of days as the more you cross out as inconvenient the greater will be the possibility of a delayed testing date. If, however, there are any dates when you will not be available to take (for example, holiday or business absences) or, if you will not be ready to take the test before a certain date you should give this information in reply to question 7 and 8. This will avoid the possibility of an unsuitable appointment.
- (5) You must supply a suitable vehicle. The following are examples of types of vehicle (Question 8).

Private Motor car, Motor Cycle, Moped, Motor Cycle Combination, Van, Lorry under 3 tons unladen, Road Roller, Trolley Bus, Laying Tractor, Invalid Carriage, Agricultural Tractor, Mowing Machine, Vehicle controlled by Pedestrian, Motor Tricycle, Vehicle propelled by Electrical Power.

Candidates who are successful in passing the driving test on a heavy motor car will:

- (a) If the test is taken on an articulated vehicle, be deemed to be competent to drive all types of heavy motor car.
- (b) If the test is taken on a rigid vehicle, be only deemed to be competent to drive heavy motor cars of that type of construction.

Note: The foregoing is without prejudice to the ability of the Road Traffic Commissioners to require further proof of competence from a person wishing to obtain the grant of a licence to drive public service vehicle.

Penalty

An applicant who, for the purpose of obtaining a licence knowingly makes any false statements is liable to a fine of up to £1,000.
