

# Budget Planner

Use the form below to make a list of all your **regular** income and all of your outgoings and expenses. Add each list up and minus the **Total Outgoings** from your **Total Income**. The amount you are left with is what you can afford to spend on other things. (You can work this out either weekly or monthly depending on how you receive your income, but don't forget to budget for things like your car tax and insurance even if you pay for them annually.)
