PROGRAMME FOR GOVERNMENT
Q1 REPORTING 2017
ACTIONS

Actions

The Programme for Government 'Our Island - a special place to live and work' was approved by Tynwald in January 2017 and in April 2017 a performance framework, 'Delivering a Programme for Government', was also approved. The 'Programme for Government 2016-21' is a strategic plan that outlines measurable goals for Government. The Council of Ministers have committed to providing a public update against the performance framework on a quarterly basis. This report provides an update on performance through monitoring delivery of the actions committed to.

The first quarter for 2017/18 ran April, May, June and reporting for this period has been undertaken during the past 4 weeks. Information has been provided from across Government Departments, Boards and Offices, and the Cabinet Office have collated these to provide this report on Key Performance Indicators.

The Programme for Government outlines a number of initial actions that were agreed by the Council of Ministers which will help take Government closer to achieving its overall objectives and outcomes. Departments Boards and Offices have developed action plans to deliver these actions and this report provides an update status report on delivery against these action plans.
