Operation Team - Work for the next period (Q3 2019-20)

Implementation of PiP

Testing of the report for the monthly financial scheme data from iTrent to the PSPA is still ongoing.

Annual Benefit Statements to 31 March 2019

The Active Annual Benefits Statements are delayed this year due to the lateness of the annual financial information (AFI) from the central government payroll, which has been delayed due to the implementation of PiP, errors in data and resources. The work to collate the employer's annual financial (AFI) data from April to August 2018 and then merge with the new PiP system MFI data from September 2018 to March 2019 is in development and was tabled for completion by PiP project team for September 2019. The PSPA have been advised that the data will be delayed until 15 November 2019. A consequence of this is that production of the statements will be delayed.

The PSPA will advise scheme members in December 2019 if the statements will be produced for this year and when this will be.

Continued to delays in processing retirements, refunds and leavers

Due to limited resources in OHR Payroll, the PSPA are not receiving final pay data at the time of claim and this may lead to delays of several weeks. The PSPA will endeavour to manage expectations and ensure the Payroll Office is aware of the most urgent cases, which are claims for retirements and deaths. Other claims such as for refunds, transfers and preservations are currently delayed and as such service turnaround times have been extended.

Pension Scheme Membership information

This section sets out the membership profile of each scheme as at the 1 July 2019. The PSPA reports the number of memberships in a scheme not the number of individual members. This is because schemes operate a "one employment equals one membership" rule. As such, members who are employed in multiple employments will have multiple memberships.
