

Isle of Man Immigration Service Processing Times – July 2021

The timeframes shown below are designed to give applicants an indication of how long their application may take.

Whilst every effort is made to work to and often exceed these aims, it is not always possible to meet these times, for example:

1. During periods of peak volumes
2. If the case is particularly complex
3. If further information is needed from the applicant
4. Where we rely upon third parties for information
5. Operational matters requiring Immigration Officers to be away from the office.

Applicants should not book travel in anticipation of receiving a decision.
