Part 2 - Descriptors of Performance against Standards

Inspection reports will describe how a service has performed in each of the standards inspected. Compliance statements by inspectors will follow the framework as set out below.

Compliant

Arrangements for compliance were demonstrated during the inspection. There are appropriate systems in place for regular monitoring, review and any necessary revisions to be undertaken. In most situations this will result in an area of good practice being identified and comment being made.

Substantially compliant

Arrangements for compliance were demonstrated during the inspection yet some criteria were not yet in place. In most situations this will result in a requirement being made.

Partially compliant

Compliance could not be demonstrated by the date of the inspection. Appropriate systems for regular monitoring, review and revision were not yet in place. However, the service could demonstrate acknowledgement of this and a convincing plan for full compliance. In most situations this will result in requirements being made.

Non-compliant

Compliance could not be demonstrated by the date of the inspection. This will result in a requirement being made.

Not assessed

Assessment could not be carried out during the inspection due to certain factors not being available.

Recommendations based on best practice, relevant research or recognised sources may be made by the inspector. They promote current good practice and when adopted by the registered person will serve to enhance quality and service delivery.

Part 3 - Inspection information

The Inspection report is based on the information provided as part of the pre inspection desk top analysis and the findings of the inspection visit.

Part 4 - Inspection Outcomes, Evidence and Requirements

**Regulation of Care Act 2013, Part 2 (37) and Care Services Regulations Part 3 (9)
Standard 2- Organisation**

2.1 - The maximum number of children between 0 years and 7 years the childminder may look after, when working alone, is six; this is dependent upon the required space standards being met. In addition a childminder must have regard to the numbers allowed within the following age bands:

- no more than 2 children under the age of 1 year;
- no more than 3 children, in total, under the age of 5 years.

The numbers within the age bands above can be exceeded to take account of exceptional circumstances; such as to provide for siblings, or other continuity of care issues that are considered to be in the best interests of the child. Each circumstance will be considered on its individual merit and the ability of the childminder to provide evidence to support their request. The maximum number of six children cannot be exceeded at any time.

NB: These ratios may be decreased as well as increased if a childminder’s circumstances warrant such a change.

Childminders cannot exceed six children aged 0-16 on the premises at any one time. This includes minded children, childminder’s own children and any other children who may visit the home.

Our Decision:

Compliant

Reasons for our decision:

There were two minded children present. According to the information provided by the childminder, she was minding within the restrictions of her registration.

The childminder was providing activities and play opportunities that encourage the children to build on their natural curiosity, develop language and physical skills, promote their aesthetic

awareness, use their imagination, promote early mathematical understanding, and develop social skills. There was a wide variety of age appropriate toys.

On the day of the inspection there were two minded children present, both children were engaged in play alongside the childminder who sat on the floor with the children. The children had chosen toys they wanted to play with and the childminder interacted with both in a positive manner. The children were respectful of each other and shared the toys.

The childminder stated that she attended mums and tots and singing groups with the children. As well as going to the park and walks.
