Part 2 - Descriptors of Performance against Standards

Inspection reports will describe how a service has performed in each of the standards inspected. Compliance statements by inspectors will follow the framework as set out below.

Compliant

Arrangements for compliance were demonstrated during the inspection. There are appropriate systems in place for regular monitoring, review and any necessary revisions to be undertaken. In most situations this will result in an area of good practice being identified and comment being made.

Substantially compliant

Arrangements for compliance were demonstrated during the inspection yet some criteria were not yet in place. In most situations this will result in a requirement being made.

Partially compliant

Compliance could not be demonstrated by the date of the inspection. Appropriate systems for regular monitoring, review and revision were not yet in place. However, the service could demonstrate acknowledgement of this and a convincing plan for full compliance. In most situations this will result in requirements being made.

Non-compliant

Compliance could not be demonstrated by the date of the inspection. This will result in a requirement being made.

Not assessed

Assessment could not be carried out during the inspection due to certain factors not being available.

Recommendations based on best practice, relevant research or recognised sources may be made by the inspector. They promote current good practice and when adopted by the registered person will serve to enhance quality and service delivery.

Part 3 - Inspection information

The Inspection report is based on the information provided as part of the pre inspection desk top analysis and the findings of the inspection visit.

The purpose of this inspection is to check the service against the service specific minimum standards – Section 37 of The Regulation of Care Act 2013 and The Regulation of Care (Care Services) Regulations 2013 part 3, regulation 9.

Inspections concentrate on specific areas on a rotational basis and for most services are unannounced.

The inspector is looking to ensure that the service is well led, effective and safe.

Part 4 - Inspection Outcomes, Evidence and Requirements

Regulation of Care Act 2013, Part 2 (37) and Care Services Regulations Part 3 (9) Standard 2- Organisation

2.1 - The maximum number of children between 0 years and 7 years the childminder may look after, when working alone, is six; this is dependent upon the required space standards being met. In addition a childminder must have regard to the numbers allowed within the following age bands:

- no more than 2 children under the age of 1 year;
- no more than 3 children, in total, under the age of 5 years.

The numbers within the age bands above can be exceeded to take account of exceptional circumstances; such as to provide for siblings, or other continuity of care issues that are considered to be in the best interests of the child. Each circumstance will be considered on its individual merit and the ability of the childminder to provide evidence to support their request. The maximum number of six children cannot be exceeded at any time.

NB: These ratios may be decreased as well as increased if a childminder's circumstances warrant such a change.

Childminders cannot exceed six children aged 0-16 on the premises at any one time. This includes minded children, childminder's own children and any other children who may visit the home.

Our Decision:

Compliant

Reasons for our decision:

The childminder is registered to care for six children under the age of eight years. On the day of inspection there were two children present and evidence was available to show that the adult-child ratios are being maintained.

3.2 - The childminder must select resources and provide activities, play opportunities and first-hand experiences which allow children to build on their natural curiosity as learners, develop their language and mathematical thinking, use their imagination and develop social relationships.

Our Decision:

Compliant

Reasons for our decision:

All play resources were easily accessible to the children and were observed to be age appropriate and stimulating. The childminder was observed supporting the children and promoting all areas of development and learning through play.

Children are taken on daily outings and this enables the childminder to further develop and promote their learning and development. The number of places visited are being kept to a minimum in order to reduce risk as the childminder is continuing to follow the guidance issued during the lockdowns.

The positioning of the furniture in the lounge enabled the inspector and childminder to socially distance during the inspection.

4.2 - All exit doors must be secured against unsupervised exit by children but easily accessible in the case of an emergency.

Our Decision:

Compliant

Reasons for our decision:

When arriving at the premises, the inspector was able to see that the front door was securely closed and due to the door furniture, it was not possible to gain unnoticed entry to the premises.

After entering the premises, the inspector observed the childminder securing the door. The inspector was informed the door key is kept on her person at all times to ensure they are easily accessible.

10.1 - The childminder and staff must help children to learn about what is right and wrong.

Our Decision:

Compliant

Reasons for our decision:

The childminder was observed to have clear boundaries in place and was seen to be consistent in her approach with the children. She interacted with the children as they played, listening to what they had to say and offering positive guidance when required.

When required, the childminder gave age appropriate explanations in order to help them understand their behaviour was not acceptable. The children responded positively and were praised and thanked for stopping what they were doing.

12.2 - The childminder must have attended safeguarding training prior to registration and attend refresher training, as a minimum, every 3 years. The online option can be taken up once the full safeguarding course has been attended.

Our Decision:

Non-compliant

Reasons for our decision:

Safeguarding training needed to be refreshed when Covid-19 restrictions were still in place. This meant it was not possible for training to be undertaken.

Evidence was available to show that the childminder had taken the necessary steps in order to be placed on a waiting list for the required training.
