

COMMITTEE ALERT, ADVICE, ASSURANCE REPORT TO BOARD

Committee:	MENTAL HEALTH ACT LEGISLATION COMMITTEE
Meeting Date:	21 ST MAY 2021
Chair/Report Author:	Andy Guy

KEY ITEMS DISCUSSED AT THE MEETING

1. S 115 Mental Health Act

Section 115 of the Mental Health Act 1998 ('the Act') places an obligation on the Department (Manx Care) to provide aftercare services for persons detained under Section 3, as well as patients subject to section 53 & 54 of the Criminal Jurisdiction Act. The equivalent section in the UK (England & Wales) 1983 Mental Health Act is section 117 ('s.117'). Whilst the Act is 'silent' concerning funding obligations, UK case law has developed over many years and has determined that statutory services responsible for the provision of aftercare are also responsible for the funding of any aftercare linked to the patient's mental health (the reason why they were subject to detention under the Act).

- the establishment of a s.115 working group to develop local policy in deciding what is and is not included in the aftercare services as well as including who and the meaning of 'ordinarily resident';
 - the options for reducing the cost of s.115 aftercare by creating a 'think tank' for finding new creative ways to develop mental health care in the community; and
 - A 5 to 10 year strategic plan for mental health services.

2. Mental Health Act Positional Report

It is noted that Manx Care is responsible for, inter alia, the provision of health and social care in the Isle of Man, and the DHSC is responsible for, inter alia, Health Policy, strategy, and legislation – nevertheless it was noted by the committee that It is recommended that Manx Care seek to support a fast and effective approach to revising the Mental Health Act 1998 (the Act) & Code of Practice 2011 (CoP 11) as the current Act and Code of Practice are considered very outdated.

.If the Act is not updat	ed it will n	nove too	o far from other jurisdictions and	d recipro	cal agreements	may no longer b	e viable.		
	The Mental Health Act 1998 should be repealed and replaced with a new Act & a new Code of Practice. That the new Act should be consistent with the new pending Capacity Act and to be consolidated into a single Act.								
Development of a MH	HA policy a	nd proc	edure for detained patients alrea	ady admi	tted to Noble's	Hospital.
