

Spikevax dispersion for injection COVID-19 mRNA Vaccine (nucleoside modified)

The COVID-19 vaccination will reduce the chance of you suffering from COVID-19 disease. Like all medicines, no vaccine is completely effective and it takes a few weeks for your body to build up protection from the vaccine. Some people may still get COVID-19 despite having a vaccination, but this should lessen the severity of any infection. If you are currently pregnant, planning pregnancy or breastfeeding please read the detailed information at gov.im/covidvaccination

The vaccine cannot give you COVID-19 infection, and two doses will reduce your chance of becoming seriously ill.

Full name (first name and surname):
Home address:
NHS number (if known):
GP name and address:

You will still need to follow the guidance in your workplace, including wearing the correct personal protection equipment and taking part in any screening programmes. Like all medicines, vaccines can cause side effects. Most of these are mild and short-term, and not everyone gets them.

Please read the patient information leaflet for more details on the vaccine and possible side effects by searching Coronavirus Yellow Card. You can also report suspected side effects on the same website or by downloading the Yellow Card app. Visit coronavirus-yellowcard.mhra.gov.uk

Date of birth:	Age:	Ethnicity:
Daytime contact telephone number:		
Gender (circle as appropriate):		
<input type="checkbox"/> Male <input type="checkbox"/> Female <input type="checkbox"/> Prefer not to say		
<input type="checkbox"/> I am a woman of childbearing age and I have read the leaflet on pregnancy and breastfeeding.		

Consent for a course of COVID-19 vaccination

I want to receive the full course of COVID-19 vaccination
Name
Signature
Date

If, after discussion, you decide that you do not want to have the vaccine, it would be helpful if you would give the reasons for this below.

Thank you for completing this form.

Office use only

Vaccine Patient Specific Direction <i>(for Doctors only)</i>		Dose	Route	Freq	Date	Signature	GMC No.				
Spikevax dispersion for injection COVID-19 mRNA Vaccine (nucleoside modified)		100 micrograms in 0.5mL	I / M	Stat	DD / MM / YY						
Date of vaccination	Time	Vaccine Dose		Site of injection <i>(please circle)</i>				Priority Group	Batch Number	Expiry date	Brand of Vaccine

PRE-ASSESSMENT QUESTIONNAIRE

Protecting the staff: if you answer YES to the below please go straight home and follow current government guidance.

Do you have any symptoms of COVID-19? These may include:

	Yes	No
• New continuous cough?	Yes	No
• Loss of taste and/or smell?	Yes	No
• A fever?	Yes	No
• New shortness of breath?	Yes	No
Are you waiting for a COVID-19 test?	Yes	No

If you have answered yes to any of the above questions, you should immediately go home, self-isolate and phone 111 for a COVID-19 test.

If you answer YES to the next group of questions please inform the clinical staff as **YOU WILL NOT** be able to have the vaccination today.

	Yes	No
Are you under 18 years of age?	Yes	No
Have you had a previous systemic allergic reaction (including immediate onset anaphylaxis) to a previous dose of COVID-19 Vaccine or to any component of the vaccine or residues from the manufacturing process? <i>(Refer to Product Information Leaflet for a full list of the ingredients)</i> <i>(Refer to guidance in Green Book Chapter 14a for administration of a subsequent dose if allergic reaction to first dose.)</i>	Yes	No
Do you have a history of: • immediate anaphylaxis to multiple, different drug classes, with the trigger unidentified (this may indicate PEG allergy); • anaphylaxis to a vaccine, injected antibody preparation or a medicine likely to contain PEG (such as depot steroid injection, laxative); or • idiopathic anaphylaxis?	Yes	No
Are you suffering from a high temperature or fever <i>(Patients suffering from acute severe febrile illness are excluded under the PGD, the presence of a minor infection is not a contraindication for vaccination)</i>	Yes	No
Have you received a dose of COVID-19 vaccine within the last 28 days?	Yes	No
Have you completed a full course of COVID -19 vaccination?	Yes	No

The following questions relate to cautions in relation to the COVID-19 mRNA vaccine. If you have questions please read the information leaflet or discuss with the clinical staff.

	Yes	No
Are you breast feeding ? <i>(There is no known risk associated with giving non-live vaccines whilst breastfeeding)</i>	Yes	No
Do you have a condition or receive treatment that severely affects your immune system?	Yes	No
Have you received a shingles vaccine in the past 7 days?	Yes	No
Do you have a bleeding disorder?	Yes	No
Are you taking any blood thinners?	Yes	No
Are you participating in a clinical trial of COVID -19 vaccines? <i>(To be referred back to trial investigators for approval before vaccinating)</i>	Yes	No
Are you feeling unwell today?	Yes	No

If you have answered YES to any of the questions above you **MUST** speak to a Healthcare Practitioner for further advice.

I can confirm that I have received and read a copy of the Patient Information Leaflet (PIL)	Yes
