## Consent Form for children and young people aged 12-17 years

# COVID-19 mRNA Vaccine BNT162b2 (Pfizer/BioNTech)

The COVID-19 vaccine is being offered to your child. Your child will receive their first COVID-19 vaccine and you may be notified about the second dose later. The leaflet sent with this form includes more information about the vaccines currently in use. Please discuss the vaccination with your child, then complete this form before it is due. Information about the vaccinations will be put on your child's health records.

| | |
|---|---|
| Child's full name (first name and surname): | Date of Birth: / Age: / Ethnicity: |

## PRE-ASSESSMENT QUESTIONNAIRE

| Protecting the staff: if they answer YES to the questions below please advise the parent/carer and child to go straight home and follow current government guidance. | | |
|---|---|---|
| Does your child have any symptoms of COVID-19? These may include: | | |
| • New continuous cough? | Yes | No |
| • Loss of taste and/or smell? | Yes | No |
| • A fever? | Yes | No |
| • New shortness of breath? | Yes | No |
| Are they waiting for a COVID-19 test? | Yes | No |
| **If you have answered yes to any of the above questions, you and your child should immediately go home, self-isolate and phone 111 for a COVID-19 test.** | | |
| If they answer **YES** to the next group of questions please inform the clinical staff as **THEY WILL NOT** be able to have the vaccination today. | | |
| Has your child had a previous systemic allergic reaction (including immediate onset anaphylaxis) to a previous dose of COVID-19 mRNA vaccine BNT162b2 or to any component of the vaccine or residues from the manufacturing process?<br>*(Refer to Product Information Leaflet for a full list of the ingredients)*<br>*(Refer to guidance in Green Book Chapter 14a for administration of a subsequent dose if allergic reaction to first dose.)* | Yes | No |
| Does your child have a history of:<br>• *immediate anaphylaxis to multiple, different drug classes, with the trigger unidentified (this may indicate Poly Ethylene Glycol (PEG) allergy);*<br>• *anaphylaxis to a vaccine, injected antibody preparation or a medicine likely to contain PEG (such as depot steroid injection, laxative); or*<br>• *idiopathic anaphylaxis?* | Yes | No |
| Is your child suffering from a high temperature or fever?<br>*[Patients suffering from acute severe febrile illness are excluded under the PGD, the presence of a minor infection is not a contraindication for vaccination]* | Yes | No |
| Has your child received a dose of COVID-19 vaccine within the last 28 days? | Yes | No |
| Has your child already completed a full course of COVID -19 vaccination? | Yes | No |
| Has your child had COVID-19 in the last 28 days? | Yes | No |
| The following questions relate to cautions in relation to the COVID-19 mRNA vaccine.<br>If you have questions please read the information leaflet or discuss with the clinical staff. | | |
| Does your child have a condition or receive treatment that severely affects their immune system? | Yes | No |
| Has your child received any other vaccination in the past 7 days?<br>*(It should not be routine to offer appointments to give this vaccine at the same time as other vaccines. Scheduling should ideally be separated by an interval of at least 7 days to avoid incorrect attribution of potential adverse events, individuals should be informed about the likely timing of potential adverse events relating to each vaccine.)* | Yes | No |
| Does your child have a bleeding disorder? | Yes | No |
| Are they taking any blood thinners? | Yes | No |
| Are they participating in a clinical trial of COVID -19 vaccines?<br>(To be referred back to trial investigators for approval before vaccinating) | Yes | No |
| Is your child feeling unwell today? | Yes | No |
| If you have answered YES to any of the questions above you MUST speak to a Healthcare Practitioner for further advice. | | |
| I can confirm that I have received and read a copy of the Patient Information Leaflet (PIL). | Yes | |
