Dear Mr Johnstone

**Re: Public Notice – Section 117 of The Highways Act 1986 U72, Andreas (Donkey Track)**

Jemmy Dans is the property that sits directly at the end of the 'Donkey Track' on the St Jude's Road.

We purchased and moved into Jemmy Dans on 13 April 1991. We have lived here continually since this date.

During this time we have not seen any vehicles, or motorbikes using the Donkey Track.

Over the years, our children and we have walked down the Donkey Track, as far as we have been able to. Due to the wet and boggy ground towards the Bernahara Road end, we have not been able to access the Bernahara Road from the track. It has become progressively more over grown and wet in the last 10 years.

The only information we have been given in relation to this Track is by well know Manx historian and Manx language speaker, Johnny/Juan Crellin who lives in the area and he lead a walk around St Jude's providing local history. He informed us that the Donkey Track had historically been used to move hay from farm to farm by donkey.

Yours sincerely
