

The Northern Wellbeing Partnership

Invites you to our

— PUBLIC DROP-IN EVENTS —

We want to improve the health and wellbeing of the residents in the North of the Island. Your thoughts and ideas are vital to enable us achieve this.

Integrated care means offering the public the services they need at the right time, in the right place, and as close to home as possible. This means having one point of contact to access all health and social care services, alongside services provided by third sector partners.

Input from our local communities is vital if we're to develop fit-for-purpose health and social care services in the North of the Island – so your views matter!

Please come along to our informal drop-in events to share your ideas with us, and meet our team:
