Introduction

The Isle of Man in Numbers 2022 presents a comprehensive range of economic and social data relating to the Isle of Man.

The following tables and charts contain the most recent data available and cover various areas of public interest, including finance and commerce, transport and communications, population and employment.

The information contained in this publication is mostly provided in two ways. In part it is generated by Economic Affairs itself, through exercises such as the Census, the Passenger Survey and the Earnings Survey. All other information is provided by a wide range of contributors within other Departments, Boards and Offices of Government.

Data tables are available on the Isle of Man Government website at:

<https://www.gov.im/about-the-government/offices/cabinet-office/statistics-isle-of-man/>

The Island is a Crown Dependency which, through its ancient parliament, Tynwald, enjoys a high degree of domestic legislative and political autonomy. Dating back to Viking origins over one thousand years ago, the Isle of Man's Tynwald is the oldest continuously operating legislature in the world.

The Island, at 221 square miles, is home to 84,069 people and occupies a central position in the Irish Sea and the British Isles, sitting between England, Ireland, Scotland and Wales. The Island is split into 21 districts comprised of 13 parishes, 4 towns, 2 villages, and 2 district authorities, which all have individual local government boards, or commissioners.

The Isle of Man prepares its National Income accounts using the income method for Gross Domestic Product (GDP) and Gross National Product (GNP). This measure is therefore the sum of the Island's income (employed and self-employed income, company profits, rental income and profits from Government corporations), and is one of the principal measures of economic performance for the Isle of Man.

Gross National Product is GDP plus income coming to and leaving the Isle of Man through residents, non-residents and businesses.

Real GDP and GNP take into account the effects of inflation and, using the Consumer Price Index, the data has been presented in monetary values equivalent to March 2020.

The GDP and GNP figures above are calculated using ESA10 methodology and therefore the percentage changes for 2013/14 and 2014/15 may not correspond to those published previously under ESA95 methodology.

Source: Cabinet Office

Table 5 Real Contribution to GDP (£ million)

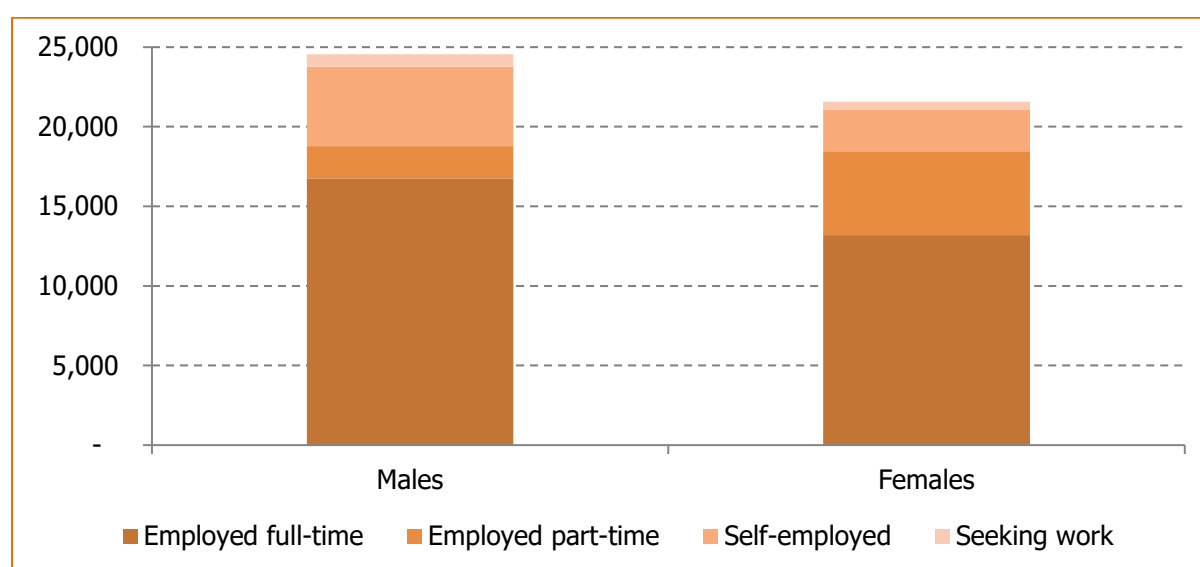

Year	Personal Income	Company Income	Other	GDP
2011/12	1,286	2,233	314	3,833
2012/13	1,269	2,441	363	4,072
2013/14	1,334	2,622	364	4,321
2014/15	1,360	2,770	384	4,514
2015/16	1,377	2,711	357	4,446
2016/17	1,470	3,028	384	4,883
2017/18	1,518	3,315	428	5,261
2018/19	1,559	3,457	413	5,429
2019/20	1,589	3,514	428	5,531

Source: Cabinet Office

Real GDP contribution takes into account the effects of inflation and the data has been presented in monetary values equivalent to March 2020.

Labour Market

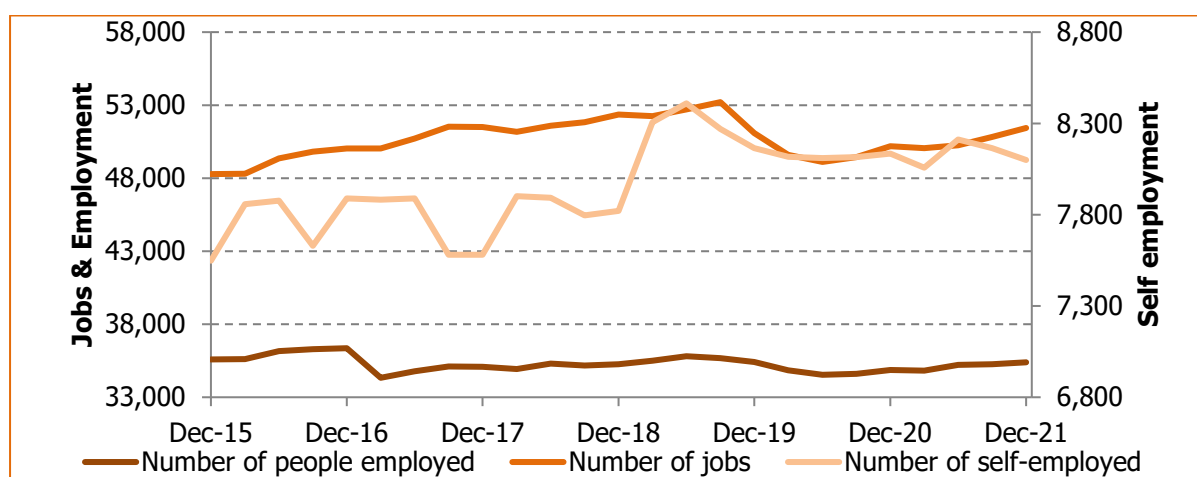

Figure 3 Economically Active Population, by Sex, by Employment Status, 2021

Source: Cabinet Office

The economically active population is defined as comprising those who are currently employed, self-employed or actively seeking work. According to the 2021 Census, the total economically active population in 2021 was 44,751. Since multiple responses were possible in the Census, figure 3 above includes those who classified themselves in multiple categories, the sum of the graph will be greater than the total economically active population.

Figure 4 Working Population and Jobs

Source: Cabinet Office

As at December 2021, the number of people in employment stood at 35,391 in 51,437 jobs. There were also 8,099 people who were self-employed. A person can be classified as both in employment and self-employed, so the total will be higher than the total of the economically active population. The number of self-employed should be read against the right hand axis.

Figure 5 Unemployment

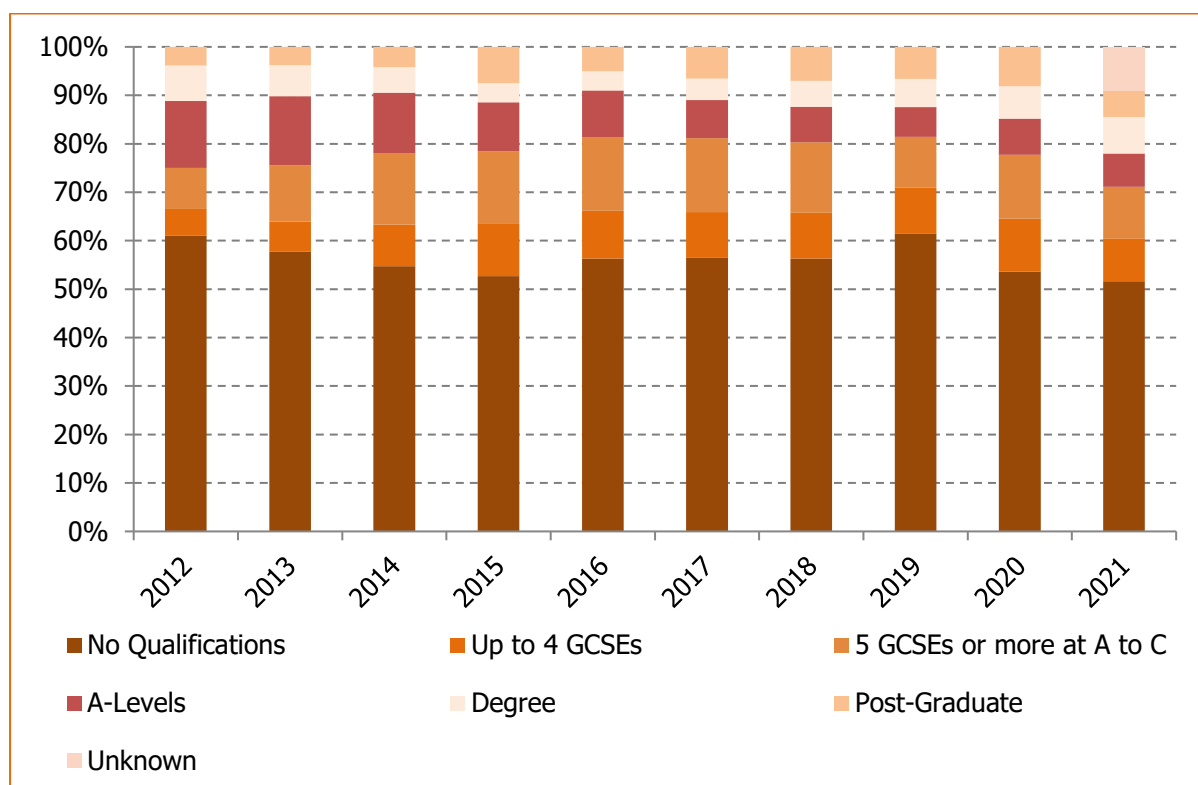

Source: Cabinet Office

Unemployment as at December 2021 stood at 0.7% of the economically active population, or 291 people, of which 193 were men and 98 were women.

The Isle of Man rate of unemployment is calculated on a claimant count basis. Some other jurisdictions use various different methods, including the International Labour Organisation (ILO) definition of unemployment, which includes those people who may be actively seeking work, but are not registered as such. Since the 2016 Census, the Isle of Man has produced an estimate of the ILO unemployed rate. For December 2021, the estimated ILO unemployed rate was 1.7% or 736 persons.

Figure 6 Job Vacancies by Required Qualifications

Source: Department for Enterprise

In 2021 of the 10,431 jobs advertised through the Jobcentre, 5,384 required no qualifications, 922 required up to 4 GCSEs at grade A to C or equivalent, 1,113 required 5 GCSEs at grade A to C or equivalent, 720 required A-Levels or equivalent, 780 required a degree or equivalent, and 584 required a postgraduate qualification.

Due to technical issues in July 2021, there were 928 jobs that couldn't be classified by their qualification requirements, and these have been classed as 'Unknown'. It is also no longer possible to report job vacancies by experience required as has been done previously.

Table 6 Employment by Sector 1951 to 2021

Industrial Sector	1951	1961	1971	1981	1991	1996	2001	2006	2011	2016	2021

Inflation

Figure 10 Annual Rate of Inflation

Source: Cabinet Office

Table 7 RPI and CPI Reflation Factors (December 2021)

Year	RPI	CPI
2011	1.412	1.181
2012	1.379	1.164
2013	1.340	1.148
2014	1.311	1.146
2015	1.282	1.164
2016	1.205	1.152
2017	1.127	1.107
2018	1.091	1.08
2019	1.073	1.058
2020	1.068	1.059
2021	1.000	1.000

Source: Cabinet Office

The reflation factors shown in Table 7 can be used to convert a price or monetary value into its real equivalent (i.e. in today's money) by multiplying by the appropriate reflationary factor. For example, using the CPI as the main inflationary measure, £100 in 2012 is the equivalent to £116.4 in 2021 ($£100 \times 1.164$). This means that to buy the same amount of goods and services as in 2012, you would need £116.4 in 2021.

Company Activity

Figure 11 Bank Deposit Base (£ bn)

Source: Financial Services Authority

As of December 2021, sterling bank deposits stood at £20.44bn, non-sterling at £16.79bn, with total deposits standing at £37.23bn.

Figure 12 Funds under Management (US\$ bn)

Source: Financial Services Authority

As of December 2021, Funds under Management amounted to US\$ 17.9bn.

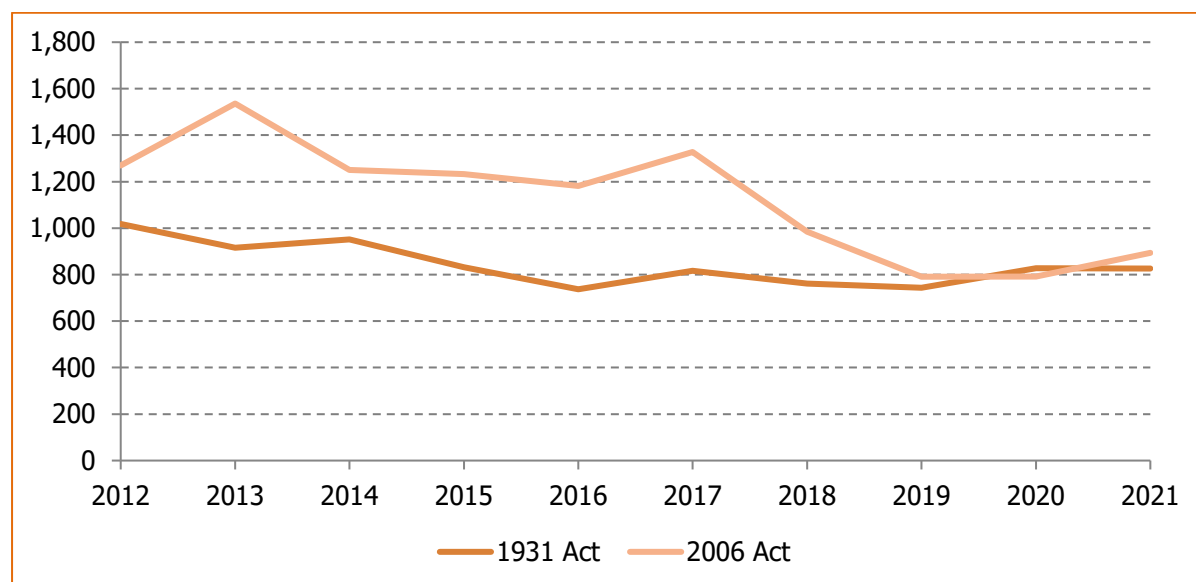

Figure 13 Authorised Insurers, by type

Source: Financial Services Authority

As at December 2021, the total number of authorised insurers on the Isle of Man was 112, with 77 of these licences relating to Captive Insurers and 13 to Life Insurance.

Figure 14 New Company Registrations

Source: Department for Enterprise

During 2021, 826 new companies were registered under the 1931 Act, along with 893 companies under the 2006 Act.

Figure 15 Total number of Companies Registered on the Isle of Man

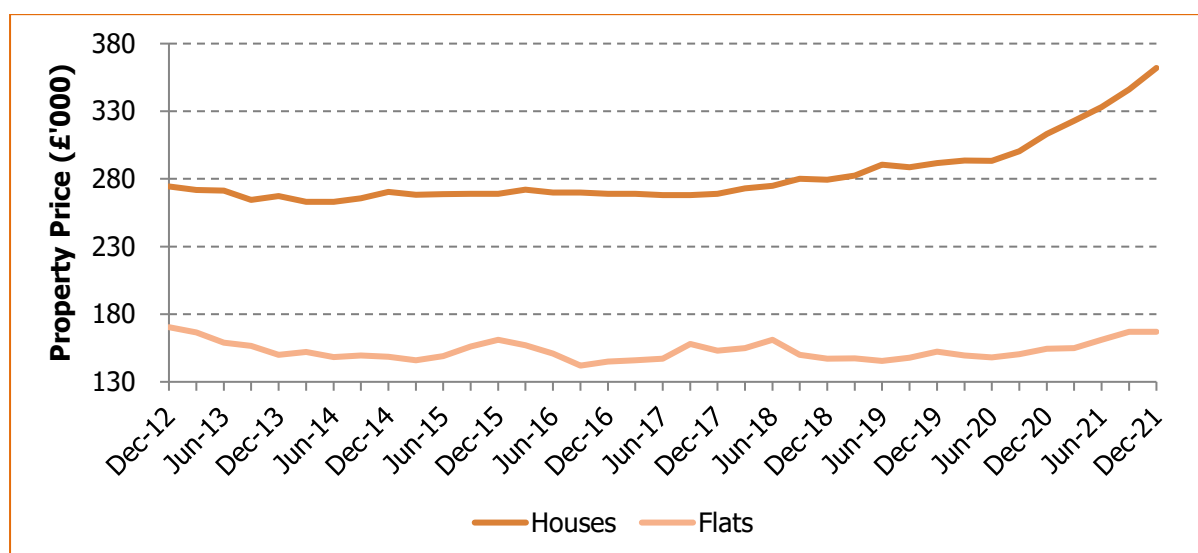

Source: Department for Enterprise

At the end of 2021, there were 15,310 companies registered under the 1931 Act and 9,807 companies registered under the 2006 Act on the Isle of Man.

Housing Market

Figure 16 Average Property Price (£'000)

Source: Cabinet Office

For the 12 months to December 2021, the average house price in the Isle of Man stood at £362,345 and the average flat price was £171,289. The data is calculated on the basis of a 12 month rolling average to the end of each quarter. Data relating to 2021 is provisional and may be subject to change.

Figure 17 Number of Property Transactions

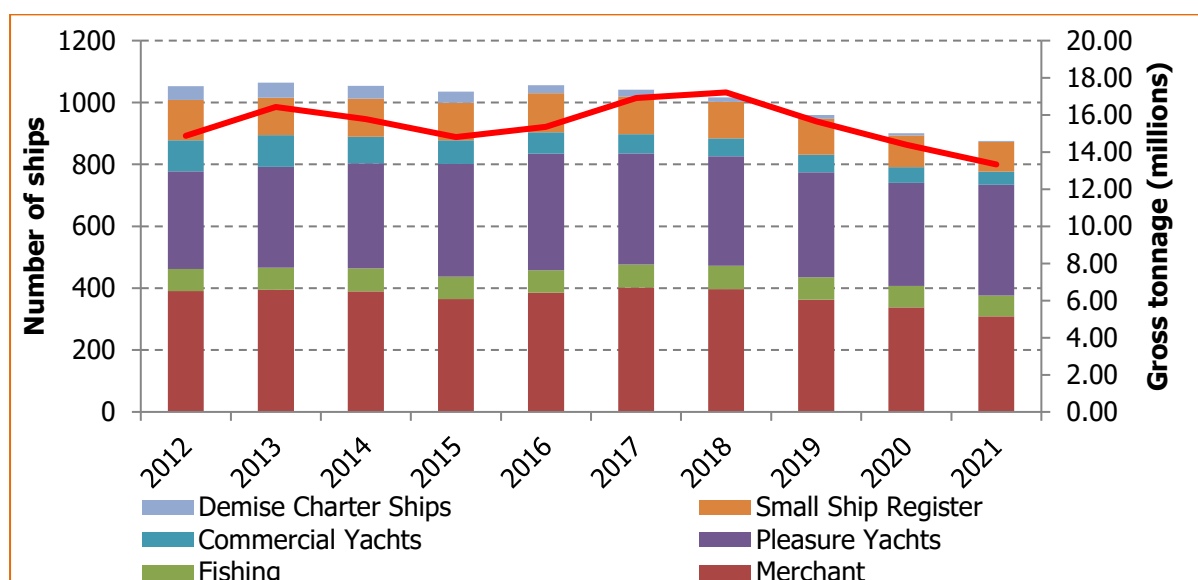

Source: Cabinet Office

For the 12 months to December 2021, 1,529 house transactions were lodged with the Land Registry, and 292 flat transactions. The data is calculated on the basis of a 12 month rolling average to the end of each quarter. Data relating to 2021 is provisional and may be subject to change.

Shipping Registries

Figure 18 Ship Registry

Source: Department for Enterprise

As at 31 December 2021, there were 309 merchant ships, 67 fishing vessels, 358 pleasure yachts, 43 commercial yachts and 3 demise charter ships registered in the Isle of Man. The Small Ship Register also had 96 ships registered at the end of the year. The gross tonnage for all ships registered amounted to 13.33 (millions) tonnes.

Aircraft Registries

As at the 31 December 2021 the total number of aircraft registered in the Isle of Man was 346.

Earnings

Figure 20 Median Weekly Earnings (£)

Source: Cabinet Office

Figure 21 Average Weekly Earnings (£)

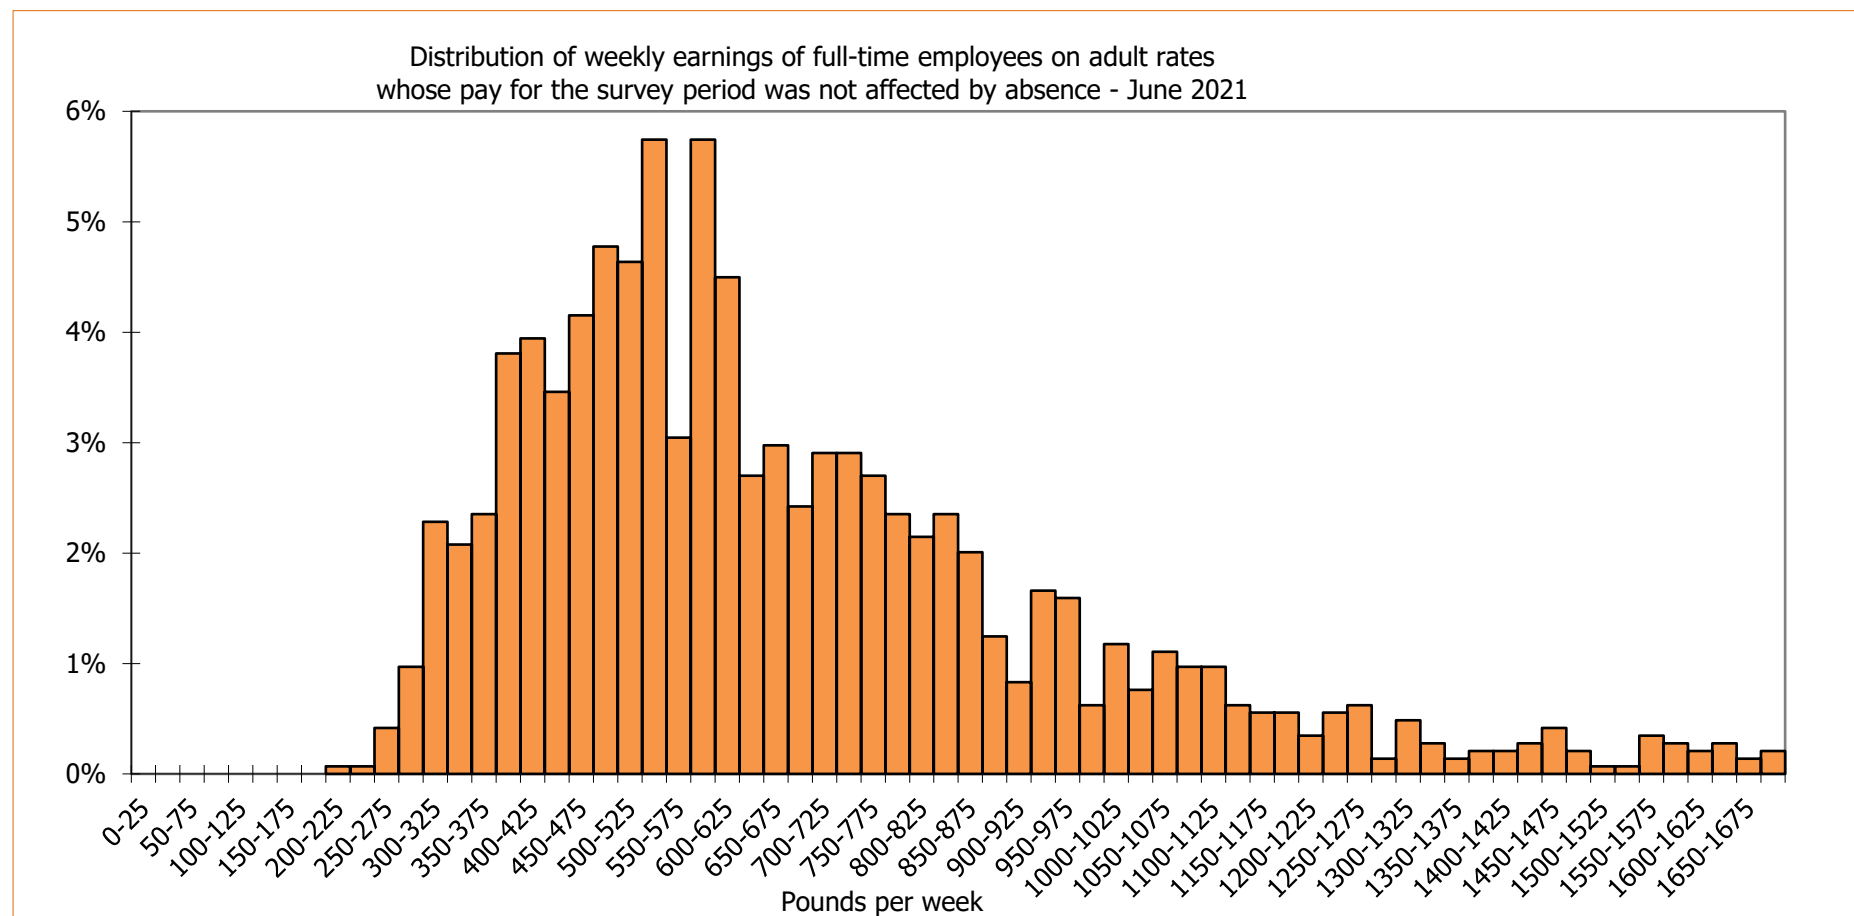

Source: Cabinet Office

The earnings survey pay period relates to June. Both the median and average weekly earnings figures only include full time employees, on adult rates, whose earnings were not affected by absence. The median weekly earnings is the level of earnings such that half the sample has earnings greater, and the other half lower. A full time employee is classified as anyone working 30+ hours a week, with the exception of teachers.

The median weekly earnings for 2021 were £613, and the average weekly earnings were £769.

Figure 22 Distribution of Weekly Earnings 2021

Source: Cabinet Office

Note: The data relates to those classified as full time employees, on adult rates, whose pay during the survey period was not affected by absence.

Income and Expenditure

Government Revenue and Expenditure

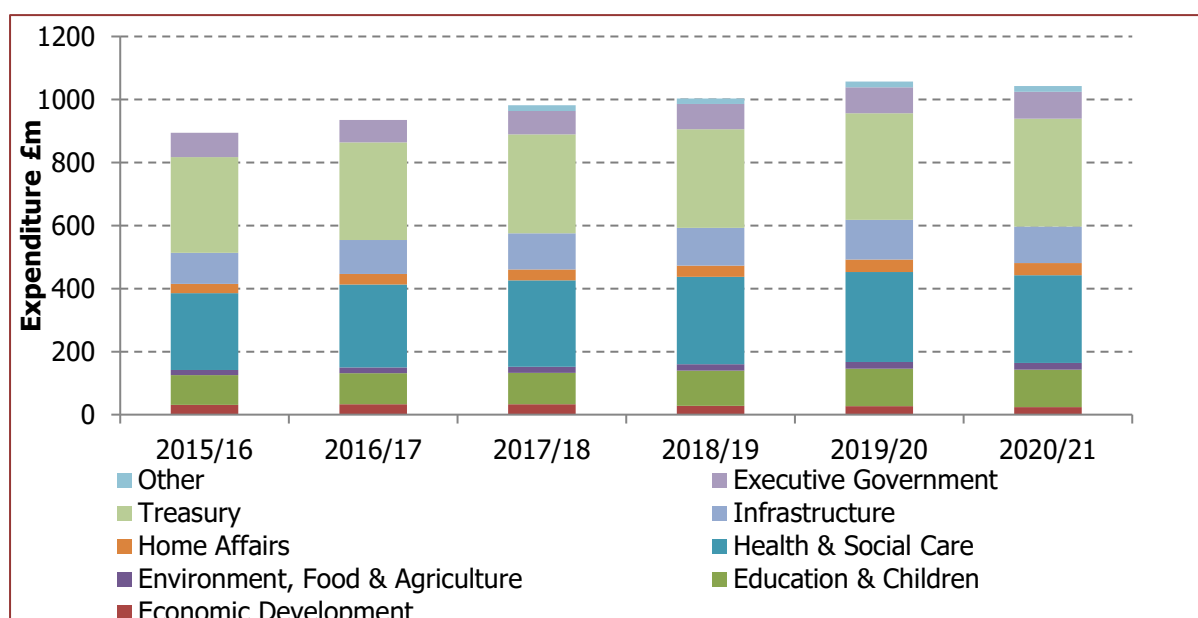

Figure 23 Government Income (£m)

Source: Treasury

For the year to 31 March 2021, Government income totalled £1,013m, compared with £1,158m the previous year.

Figure 24 Government Expenditure (£m)

Source: Treasury

During the year to 31 March 2021, Isle of Man Government Gross Expenditure was £1,073 million.

British citizenship is one of the six different forms of British nationality. Some of these were defined in the British Nationality Act 1981, which came into force on 1 January 1983. The forms of nationality are:

- British citizenship;
- British overseas citizenship;
- British overseas territories citizenship;
- British national (overseas);
- British protected person; and
- British subject.

British nationality is complicated and is defined in law. Whether a person has a claim to British nationality can be determined by applying the definitions and requirements of the British Nationality Act 1981 and related legislation to the facts of their date and place of birth and descent.

During the year to 31 March 2021, there were 72,258 consultant led outpatient attendances, 39,055 accident and emergency attendances and 16,537 hospital admissions.

Figure 43 Life Expectancy

Source: Department of Health and Social Care, Public Health Directorate

Life expectancy has been calculated based on a 3 year period covering 2018-2020. Life expectancy for males is expected to be 78.1 years at birth and 82.7 years at age 65 in the Isle of Man, compared with 79.4 years at birth and 83.7 years at age 65 in the UK. This compares to 83.2 years at birth and 86.4 years at age 65 in the Isle of Man, or 83.1 years at birth and 86.1 years at age 65 in the UK for females.

Figure 44 Mortality Rates

Source: Department of Health and Social Care, Public Health Directorate

Over the period 2017-2019 mortality from causes considered preventable are those that, in the light of the understanding of the determinants of health at the time of death, all or most deaths from the underlying cause (subject to age limits if appropriate) could potentially be avoided by public health interventions in the broadest sense.

Over this period there were 165.9 deaths from causes considered preventable per 100,000 population in the Isle of Man and 142.2 per 100,000 population in England. Cardiovascular mortality rates were 74.7 per 100,000 population in the Isle of Man and 70.4 per 100,000 population in England. Mortality rates for all cancers were 155.2 per 100,000 population in the Isle of Man and 129.2 per 100,000 population in England. Over the period Infant mortality rates were 3.9 per 1,000 per population in the England, there is a null entry for the Isle of Man due to small numbers.

Table 20 Employment in Professional Medical Services

Year	General Practitioners	NHS Dentist	Private Dentist	Opticians	District Nurses	Health Visitors
2014	52	7	27	24	56	17.0
2015	53	5	27	28	59	19.0

The drug and alcohol therapy numbers for 2020/21 are under review and currently not available for reporting.

Keeping People Safe

Figure 45 Offences against the Person

Source: Department of Home Affairs

During 2021, there were 622 crimes recorded as Offences against the Person, with 187 of these being detected. Crimes detected are defined as a recorded crime where one or more persons have been identified and linked to the crime as subjects. Whilst this often results in them being charged, it does not necessarily mean they are convicted.

Figure 46 Sexual Offences

Source: Department of Home Affairs

During 2021, there were 88 crimes recorded as Sexual Offences, with 12 of these being detected.

Figure 47 Burglary Offences

Source: Department of Home Affairs

During 2021, there were 76 crimes recorded as Burglary Offences, with 19 of these being detected.

Figure 48 Theft Offences

Source: Department of Home Affairs

During 2021, there were 417 crimes recorded as Theft Offences, with 120 of these being detected.

Figure 49 Total Offences

Source: Department of Home Affairs

During 2021, there were 2,628 crimes recorded, with 930 of these being detected.

Figure 50 Average Prison Population

Source: Department of Home Affairs

The average prison population for 2021 was 111.

Figure 51 December 2021 Prison Population by Age

Source: Department of Home Affairs

In December 2021, there were 7 prisoners under the age of 21, 31 aged 21 to 30, 20 aged 31 to 40, 18 aged 41 to 50, and 20 at 50 and above.

Figure 52 December 2021 Prison Population by Offence

Source: Department of Home Affairs

In December 2021, the largest offence category within the Isle of Man prison was drug offences. Of the 96 people in prison, 42 were there for drug offences.

Figure 53 December 2021 Prison Population by Length of Sentence

Source: Department of Home Affairs

In December 2021 there were 56 people serving sentences of 4 years and above.

Figure 54 Ambulance Emergency calls

Source: Department of Health and Social Care

During 2020, there were 10,256 emergency calls made to 999, and 2,245 GP calls and Air Ambulance Transfers. GP and Air Ambulance transfers includes all non emergency work, including clinics and hospital discharges.

Figure 55 Number of Road Accidents

Source: Department of Home Affairs

During 2021, there were 167 personal injury collisions on the Isle of Man.

From 2019, damage only collisions are no longer recorded in the crime recording system, unless there is a clear policing purpose for doing so (for example, offences have been committed that require investigation). Therefore, we no longer report damage only collisions within the total number of collisions. To ensure this is clear we will refer to collisions as 'personal injury collisions'.

Figure 56 Injuries Sustained in Vehicle Accidents by Type

Source: Department of Home Affairs

During 2021, there were 39 serious injuries, 168 slight injuries, and 4 fatalities due to collisions on the Isle of Man.

Data reported from 2019 onwards is relating to casualties. Therefore if a collision occurred that involved multiple casualties, they are each represented within the statistics classified by their personal injury severity. So a collision with two seriously injured casualties and one slightly injured casualty would all be counted as such, whereas prior to 2019 this would be recorded as one serious incident.

Figure 57 Debt Counselling New Clients

Source: Office of Fair Trading

Note: Data for the above years have been restated to financial years instead of calendar years.

In 2020/21 The Office of Fair Trading had 46 new debt counselling clients

Figure 58 Consumer Concerns Recorded by the OFT - Subject Matters Consistently in the Top 10

Source: Office of Fair Trading

In 2020/21 there were 92 complaints regarding home maintenance, repairs and improvements, 74 regarding second cars, 111 regarding tenancy advice, 59 regarding money advice, 23 regarding car repairs and servicing and 61 regarding scams or possible scams.

"Money advice" does not include advice provided to clients of the OFT's debt counselling service.

International Development

Figure 59 International Development expenditure, by region (£)

Source: Cabinet Office

The Council of Ministers agreed in February 2017 to support the United Nations High Commissioner for Refugees (UNHCR) through a one-off donation of £973,000 to provide aid and humanitarian assistance to Syrian refugees in neighbouring countries.

This donation was made in the 2017- 2018 financial year and was provided by £654,953 which was accrued from the 2016-2017 budget, and the remaining amount of £318,047 originating out of the transition from the multi-year grant funding to the newly created International Development Partnerships budget.

Note: Total expenditure in 2020/21 was lower than budgeted due to the Covid-19 pandemic. All unspent funds at the end of the financial year were re-allocated or accrued into the 2021/22 budget to cover the cost of postponed projects due to Covid-19.

Greenhouse Gas Emissions

Figure 60 Greenhouse Gas Emissions, by Type

Source: Data compiled and prepared by Aether Limited, and provided by Department of Environment, Food and Agriculture.

The most recent data available concerning emissions on the Isle of Man relates to 2020. In March 2013, the Isle of Man adopted a target to reduce CO₂ emissions by 80% by 2050, which is in line with targets in the United Kingdom. In 2020, the Isle of Man produced 516 kilotonnes of CO₂, 89 kilotonnes of methane, 44 kilotonnes of nitrous oxide and 24 kilotonnes of fluorinated gases (hydrofluorocarbons and sulphur hexafluoride).

The data collection has been improved which has allowed for the estimates previously used to be replaced with local, accurate data.

Waste and Recycling

Figure 61 Tonnes of Materials Recycled Collected at Bring Banks

Source: Department of Infrastructure

During 2021, 387 tonnes of paper, 1,174 tonnes of glass and 83 tonnes of cans were recycled after being collected at bring banks.

Figure 62 Kilograms of Dry Cell (Household) Batteries Recycled by Collection

Source: Department of Infrastructure

In 2021 a total of 7,250kg of batteries were recycled, of which 6,070kg were collected at local amenity sites, 880kg at local Co-operative stores and 300kg through schools.

Figure 63 Tonnes of Waste Processed at the Energy from Waste Plant

Source: Department of Infrastructure

During 2020/21 there were 35,849 tonnes of domestic waste and 12,816 tonnes of commercial waste processed at the Energy from Waste Plant.

Figure 64 Tonnes of Waste Processed at the Wrights Pit North

Source: Department of Infrastructure

In 2020/21, 391 tonnes of waste were processed at the Wrights Pit North. The large increases between 2011 and 2013 were caused by asbestos removal at Janets Corner.

Agriculture

Figure 65 Agricultural Land Holdings, by Size (acres)

Source: Department of Environment, Food and Agriculture

As at 31 December 2021, there were 337 farms, of which 84 were over 300 acres in size, 55 between 200 and 300 acres, 26 between 150 and 200 acres, 52 between 100 and 150 acres, 60 between 50 and 100 acres, 48 between 20 and 50 acres and 12 farms under 20 acres in size. In 2012 only applicants to the Countryside Care Scheme were sent forms and the statistics are compiled from their claim data.

Figure 66 Agricultural Land Use (acres)

Source: Department of Environment, Food and Agriculture

As of 31 December 2021, 6,520 acres were used to grow cereals, 64,539 acres for hay and grassland, 24,003 acres for rough grazing and 1,265 acres used for other activities.

Planning and Construction

Figure 67 Planning Applications Determined and Approved

Source: Department of Infrastructure

As of March 2021, there had been 1,561 planning applications determined, 1,375 of which were approved.

Figure 68 Dwellings Completed

Source: Department of Infrastructure

Note: Private housing includes all new housing excluding affordable housing, and public housing includes first time buyer and public rented housing.

During 2021, 128 private dwellings were completed, along with 67 public dwellings.

Table 26 Occupational Injuries, by Type

Type of injury	2012/13	2013/14	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21
Cases of fatal injury	2	1	2	-	2	-	2	2	1
Major injury	95	100	44	76	82	64	79	49	78
Over 3 day injuries	112	146	120	91	146	165	119	84	140
Dangerous occurrences	29	12	27	20	19	15	23	19	26
Disease	1	-	-	-	1	-	-	27	11

Source: Department of Environment, Food and Agriculture

Note: An 'Over 3 day injury' is an injury resulting in the worker being unfit for work for more than three days. What was formerly classed as a 'Serious injury', is now a 'Major injury'.

Housing

Figure 69 2021 Local Authority Housing Stock by Location

Source: Department of Infrastructure

In 2021, Local Authority housing stock consisted of 151 properties in Braddan, 258 in Castletown, 2,231 in Douglas, 406 in Onchan, 357 in Peel, 214 in Port Erin, 122 in Port St Mary and 557 in Ramsey, alongside 1,260 Department of Infrastructure owned properties. Malew is no longer a housing authority (previously owned 8 x public sector properties; Rushen has 4 houses but not been included due to the small numbers involved.

Figure 70 2021 Local Authority Housing Stock by Property Type

Source: Department of Infrastructure

As at 1 April 2021, Local Authority housing stock consisted of 283 bedsits, 251 one bedroom properties, 2,379 two bedroom properties, 2,468 three bedroom properties and 175 properties with four or more bedrooms.

Table 27 House Purchase Assistance Statistics

Year	First Time Buyer Transactions	Open Market Transactions	Total Assistance Paid	Average Assistance
2009-2010	29	26	£1,605,279	£29,187
2010-2011	86	12	£3,297,679	£33,650
2011-2012	41	12	£1,291,771	£24,373
2012-2013	38	13	£1,227,019	£24,059
2013-2014	72	15	£2,086,490	£23,983
2014-2015	9	14	£578,417	£25,149
2015-2016	24	25	£1,543,393	£31,498
2016-2017	13	22	£1,025,545	£29,301
2017-2018	12	17	£804,954	£27,757
2018-2019	19	11	£835,370	£27,846
2019-2020	19	7	£777,444	£29,902
2020-2021	9	11	£648,689	£32,434

Source: Department of Infrastructure

The numbers of "approved" properties fluctuate year on year as the programme for completion is determined by the developers who deliver these properties to the Department's special and technical standards, under section 13 of the Town and County Planning Act 1999. Demand for these properties also fluctuates depending on the locations available. Over 61% of those currently on the First Time Buyer Register want Douglas and the East as their area of choice for purchase.

Figure 71 House Purchase Assistance Applicant Demographics

Source: Department of Infrastructure

During the financial year 2020/21, 27% of applicants for house purchase assistance were under 25 years of age, 40% earned more than £26,000 per annum and 65% were single applicants.

Freight

Figure 72 Freight imports

Source: Department of Infrastructure

During 2021 there were 75,074 tonnes of oil, 1,802 tonnes of LPG, 11,382 tonnes of cement, and 31,603 tonnes of bulk and general imports.

Energy Production

Figure 73 Electricity: Units sold (GWH)

Source: Manx Utilities Authority

Note: 1GWH = 1 million kilowatt hours

During 2021, 352.8 Gigawatt hours were sold on the Isle of Man to residential, commercial and industrial customers.

Figure 74 Electricity Generation Mix (GWH)

Source: Manx Utilities Authority

To December 2021, 56% of electricity on the Isle of Man was produced by the Combined Cycle Gas Turbine facility at Pulrose, Douglas. Imported electricity made up 38% of the generation mix which is a large increase on previous years, with renewable sources such as Hydro power making up 5%. The remaining 1% is made up by Diesel.

Figure 75 Number of Electricity Customers, by Type

Source: Manx Utilities Authority

In 2021, the Manx Utilities Authority had 43,522 domestic customers, 5,442 commercial customers and 318 industrial customers.

Figure 76 Number of Electricity Customer Minutes Lost

Source: Manx Utilities Authority

In 2020/21 the Manx Utilities Authority lost 6.94 average customer minutes due to faults and damages. Pre-arranged outages are not included in the figures above. This is a lower figure than previous years due to the Covid pandemic and a reduction in activities which would usually cause third-party damage to underground cables.

Figure 77 Gas Consumption, by Type

Source: Office of Fair Trading

During 2021, 314 Gigawatt hours of gas consumed was natural gas and 35 Gigawatt hours was LPG. The 2012 data is affected by conversion of some mains sectors from LPG to natural gas.

Figure 78 Fuel Types Imported into the Island

Source: Department for Enterprise

In 2021, 962 Gigawatt hours of oil, 860 Gigawatt hours of gas and 176 Gigawatt hours of other fuels were imported into the Isle of Man.

Figure 79 Fuel Types Consumed on Island

Source: Department for Enterprise

In 2021 there were 498 Gigawatt hours of oil, 464 Gigawatt hours of road fuel, 349 Gigawatt hours of gas and 353 Gigawatt hours of electricity consumed on the Island.

Water

Figure 80 Bathing Water Quality at Island Beaches

Source: Department of Environment, Food and Agriculture

Note: Assessed against European Parliament Directive 2006/7/EC

Under the assessment period of 2017-2020, no beaches on the Isle of Man were deemed to have poor bathing water quality under the European Parliament directive, with three being deemed as sufficient, three as good and one as excellent.

Because of COVID the bathing water monitoring was reduced significantly in 2020, and in 2021 there was a reduction in the number of samples as there are now only four designated beaches. Seven samples were collected on a weekly basis from Port Erin, Port St Mary, Douglas Central, Douglas Broadway, Douglas Summerhill, Ramsey South and Ramsey North. Castletown beach was added in 2021.

Transport

Data for the following graphs was unavailable for 2020 due to redeployment of staff.

Figure 81 Numbers of Driving Tests Taken

Source: Department of Infrastructure

During 2021 there were 1,737 driving tests taken in the Isle of Man. This includes car, motorcycle and HGV and other driving tests. The reduction in the number of tests was due to the Covid-19 pandemic and tests couldn't take place due to social distancing rules.

Figure 83 Driving Test pass rates by Vehicle

Source: Department of Infrastructure

During 2020/21, 45% of tests undertaken in manual cars passed, 63% of manual bikes and in total 50% of all tests were passed. Total includes all types of tests undertaken such as cars, bikes, HGVs and other vehicles.

Figure 84 Vehicle Registration

Source: Department of Infrastructure

During the 2020/21 financial year, 71,528 cars, 7,361 motorcycles and 3,269 other types of vehicle were registered. The other category includes Goods, Articulated Goods, Buses/Minibuses and agricultural and plant vehicles.
