## Manx Care, Culture of Care Barometer - ACTION PLAN - updated 13 October 2022

FINAL v10 (updated 13/10/2022) - this plan has been created following analysis of the results of the Culture of Care Barometer survey focussing on nine key themes. It has been developed in consultation with an established LNC which includes representatives from the medical workforce, BMA and OHR, chaired by the CEO. The draft plan was circulated to all Clinical Directors with a request for feedback. It is important to note that a number of the actions below will require more detailed plans in order to deliver the recommendation; the Workforce & Culture Project Team will work with key stakeholders to develop the plans which will sit underneath. The Workforce & Culture Project Team will monitor and update the plan fortnightly which will be shared with LNC and EMC on a monthly basis, assured via the People Committee. Please note that deadlines and owners in italics are pending confirmation with the action owner. The plan will be treated as a live document (with version control) and will be accessible in a shared group in Teams. Regular communications to the workforce in the form of "You said, we will, so that" should be issued.
