Executive summary

Membership Information

The figures shown on pages 5 to 8 reflect current membership data held by the PSPA.

Work Statistics

The number of tasks outstanding at the end of the quarter is 465. This exceeds the operational goal of having no more than 300 tasks outstanding. The total output over the quarter was 3296 cases completed, with 3048 cleared within the service Level Agreements (SLA) shown below, resulting in a performance of 92%.

Service Level Agreements (SLA)

The service level agreements are:

5 working days for miscellaneous enquiries

7 working days for Estimates

8 working days for New Starters

9 working days for Transfers, Deaths, Deferred Preservations, Refunds and Awards

Operation Team - Work for the next period (Q4 2022-23)

Employer Data

The timeliness and accuracy of starter and leaver data being submitted by OHR has improved but there is still a backlog of missing information and delays in receiving leaver salary and service information. Work continues on improving the quality of the data and to provide it in an automated format. Work by the team to address the backlog of work caused by this issue is progressing.

Below are the contact details of the team administering the IOM Public Service Pension Schemes:

Pension Scheme Membership information

This section sets out the membership profile of each scheme as at the 31 December 2022. The PSPA reports the number of memberships in a scheme not the number of individual members. This is because schemes operate a "one employment equals one membership" rule. As such, members who are employed in multiple employments will have multiple memberships.

NOTE

- For the purposes of this report we have assumed a NRA for all Unified Scheme members is age 65.
- Although this table is based upon the Normal Retirement Age (NRA) for each Scheme, there are variations which mean that some members can retire at differing ages and a number of members retire after NRA. For the purpose of this table, only the Normal Scheme Retirement Age has been analysed.

Financials

The Table on pages 9, 10 and 11 reports the income and expenditure from the schemes managed by the PSPA for the year ended 31 December 2022. It also includes data for the previous five full years for comparison purposes. It is important to note that these figures are compiled on a cash flow basis and are unaudited. Furthermore, the figures are subject to rounding and may not correctly total.
