Request to extend the registration period beyond 10th May 2024.

I have been requested by the Board of Michael District Commissioners to request an extension to the registration period beyond 10th May 2024. The reasons for this are as follows:

- Residents have reported that they feel this process has been rushed and that there has been a lack of consultation.
- Some residents do not have access to the internet.
- Residents have reported that they have not seen any advertising of this matter.
- Residents wish for more time to fully read and understand the paperwork presented and feel that it is not as straightforward as it could be.

Kind regards
