Notes

If you have the new style (A4 size) Vehicle Registration Certificate for your vehicle (not the yellow log book), this document should be acceptable for re-registering in any European Union Country and you may not need an 'Export Certificate'. It is advisable that you confirm with the country that the vehicle it is being exported to whether an Export Certificate is required.

This application form is used to notify the Post Office that the vehicle has been exported to outside of the Isle of Man and should not be used for any other purpose.

If you wish to retain the registration number then use a C1 form or MVR2 form to move the number onto another vehicle.

If the vehicle has a valid licence disc then this can be submitted using an R1 form for a refund of any full months remaining at the time of application.

If an export certificate is required then submit the Vehicle Registration document with this form and follow the procedures below.

Please be aware that once a vehicle has been issued with a Certificate of Export or declared as exported, the registration and licence (tax disc) of the vehicle is no longer valid.
